

Wondering how energy efficient your home is?  
Curious if there is a way to cut back on your utility bill?  
Do you have phantom loads in your home?

**Colorado State University Extension**  
can help you find these answers and more with the  
**Home Energy Audit Loan Kit (HEAL).**

The HEAL kit includes:

- **Thermal Leak Detector** – detects air leaks and gaps in insulation
- **Kill-A-Watt Monitor** – measures electricity used by appliances
- **Flicker Checker** – tests the ballast type for fluorescent tube lighting
- **Hot Water Gauge** – measures hot water heater water temperature
- **Refrigerator/Freezer Thermometer** – checks to ensure settings are at ideal temperatures

**Contact the Summit County Extension/4-H Office**  
970-668-4142 or [Kathie.Kralik@SummitCountyCO.gov](mailto:Kathie.Kralik@SummitCountyCO.gov)

to learn more about checking out the  
HEAL kit to determine the energy efficiency of your home.
