AMENDED AND RESTATED STANDING PUBLIC HEALTH ORDER
REGARDING THE COVID-19 PANDEMIC
FOR SUMMIT COUNTY, COLORADO

1. **Purpose, Effective Area.** This Amended and Restated Public Health Order is being issued to limit the health impacts of COVID-19. This Order sets forth requirements and guidelines for group gatherings, business operations, personal responsibility, and additional guidance to slow the spread of COVID-19. This Order is effective within the entirety of Summit County, including all towns within the County.

2. **Effective Date and Time, Limitations.** The Public Health Order will become effective at 12:01 a.m. on July 15, 2020, unless otherwise specifically provided for herein, and will remain in effect until 11:59 p.m. July 31, 2020, unless extended, rescinded, superseded, or amended in writing.

3. **Findings and Intent.** As of June 1, 2020, there are 26,577 known cases of COVID-19 in Colorado; 4,372 Coloradans have been hospitalized and 1,185 Coloradans have died from COVID-19. There is clear evidence that some individuals who contract COVID-19 have no symptoms or have very mild symptoms, which means they are likely unaware they carry the virus. Asymptomatic individuals can transmit the disease, and evidence shows the disease is easily spread, so gatherings of people facilitate transmission of COVID-19.

The Public Health Director further finds that the presence of visitors from many communities throughout the state and the country, if unregulated, may introduce increased illness into the community, imposing burdens on the local economy, local workers, our health care system, public services, first responders, food supplies and other essential services during the ongoing COVID-19 pandemic.

The Public Health Director further finds that, in the absence of a widely available vaccine and/or treatment, we must use other tools, such as physical distancing and face coverings, to mitigate the spread of COVID-19 to protect health and save lives.

The intent of this Order is to minimize contact among individuals and reduce the public’s exposure to the novel coronavirus, while lifting some of the existing restrictions on social, civic, businesses and commercial activities.
4. **Legal Authority.** This Order is adopted pursuant to the legal authority set forth in sections 25-1-506 and 25-1-508, 25-1-509, Colorado Revised Statutes as well as all other applicable laws, rules, regulations, orders and declarations. Under this authority, the Summit County Public Health Director has the duty to investigate and control the causes of the epidemic or communicable diseases and conditions affecting public health; to establish, maintain, and enforce isolation and quarantine; to exercise physical control over the property and over the persons of the people within the territorial limits of Summit County; and to prohibit the gatherings of people to protect the public health; all as the Public Health Director may find necessary for the protection of the public health. Issuance of this Order is deemed reasonable under the existing circumstances and necessary for the immediate preservation of the public health, safety and welfare.

5. **Most Restrictive Standard Controls.** To the extent any State and/or Federal orders or laws are more restrictive than what is set forth herein, such orders control. Individuals should be aware that new orders from Governor Polis and the Colorado Department of Public Health and Environment (CDPHE) are being issued on a regular basis, and all members of the public are responsible for following the Governor’s orders, CDPHE orders, and local orders. The more restrictive Summit County provisions expressly provided below shall control.

6. **Incorporation of State Orders.** All Executive Orders issued by the Governor and all CDPHE Public Health Orders are hereby adopted and deemed incorporated herein. This Amended and Restated Public Health Order is intended to clarify and harmonize this Summit County Public Health Order with all of the State’s orders.

For purposes of this order, the term “Physical Distancing Requirements” shall have the same meaning as the State defined term “Social Distancing Requirements”.

7. **Compliance with State Orders.** In order to safely open and operate, the following businesses and entities as defined by the State: Critical Businesses, Critical Government Functions, non-Critical Office-Based Businesses, Personal Services, Limited Healthcare Setting, and Non-Critical Retail must comply with all Executive Orders issued by the Governor and all CDPHE Public Health Orders applicable to such operations.

8. **Five Commitments of Containment.** Preventing a resurgence of COVID-19 in Summit County requires all individuals and businesses to comply with the mandatory provisions of this Order. In addition, all persons in Summit County are strongly encouraged to assume additional personal responsibility and adopt the Five Commitments of Containment to keep transmission of illness low. These are:

   a. I will maintain 6 feet of physical distance from other individuals.
      i. Physical distance is one of the most effective COVID-19 prevention measures.
      ii. I will keep this distance from any person who is not from my household.
b. I will wash my hands frequently and thoroughly for at least 20 seconds.
   i. Hand washing is especially important after visiting public settings and
      businesses and before eating or touching my face.

c. I will cover my face in public.
   ii. I will wear a face covering whenever I am outside and may not be able
       to maintain 6 feet of physical distance from others.
   iii. I will wear a face covering whenever I am in indoor areas open to the
        public.
   iv. Face coverings are not a substitute for maintaining physical distance.

d. I will stay home when I am sick.
   i. Isolating myself from others, including household members, will help
      protect others and limit the spread.

e. I will get tested immediately if I have COVID-19 symptoms.
   i. Testing early after COVID-19 symptoms develop can provide valuable
      information to help prevent spreading COVID-19 to other people and to
      inform public health officials about the extent of disease spread in the
      community.

   a. All Critical Businesses, Critical Government Functions, Non-Critical Office
      Based Businesses, Critical and Non-Critical Retail, Limited Healthcare Settings, Restaurants,
      Houses of Worship, Non-Critical Manufacturing, Personal Services, Outdoor Recreation, 
      Personal Recreation, Children’s Day Camps, Youth Sports Day Camps and Exempt Single Skill
      Building Youth Camps, prior to performing operations or services, complete the online Summit
      County Business Physical Distancing Protocol Form. The completed form must be posted at or
      near the entrance of the establishment and shall be easily viewable by employees, customers,
      clients and others on site. The completed form must also be posted on the establishment’s
      website, if the establishment has a website.

   b. All aforementioned entities must also comply with all applicable Governor’s
      order, CDPHE orders, and DORA and State rules, regulations and guidance.

10. Hours of Operation for Restaurants and Bars

   a. Beginning July 15, 2020, all Restaurants, Bars and other places of public
      accommodation permitted to offer food and beverages for on-site consumption pursuant to the
      CDPHE Eighth Amended Public Health Order 20-28 as amended, must close for on-site
      consumption and occupancy by 11:00 p.m. daily. This closure applies to both outside dining and
      indoor dining. Establishments are strongly encouraged to implement protocols to insure that all
      patrons have left the premises by 11:00 p.m.
b. Operations for delivery, window service, drive-through service, drive-up service or curbside delivery may continue as permitted by applicable law.

11. Employee Health Surveillance for Restaurant and Lodging Workers. All Restaurants, Bars and other places of public accommodation permitted to offer food and beverages for on-site consumption pursuant to the CDPHE Seventh Amended Public Health Order 20-28 as amended and all lodging operators shall maintain a record of the following employee information, for the purposes of contact tracing activities in the event of a suspected or confirmed outbreak of COVID-19:

   a. Current contact information for all employees,
   b. Dates of all shifts worked by all employees, dating back to re-opening, and
   c. Other known places of employment for each employee.

   a. Agencies or individuals providing public transportation, including rideshares, taxis, ski resort buses and shuttles must follow the CDPHE COVID-19 Guidelines for Public Transportation Providers as may be amended. Appropriate Physical Distancing Requirements and other administrative operational directives and permissions may be issued by the Summit County Public Health Department; members of the same household may sit together.

   b. All transportation services riders and operators ages 3 and older must wear face coverings at all times except as otherwise exempted in Section 14 of this Order and follow appropriate Physical Distancing Requirements to the greatest extent possible.

   c. Public transportation providers may increase bus capacity to 50% as long as the following criteria are followed:

      i. Institute a “windows open” policy. For buses that do not have operable windows, an air circulation system that includes HEPA filtration or fresh air supply must be running continuously during operations to create frequent turnover of air within the bus.

      ii. Barriers, such as Plexiglas shields, are encouraged to be constructed around the driver (especially in cases where front door loading is necessary).

      iii. All other CDPHE COVID-19 Guidelines for Public Transportation Providers are followed or exceeded, including enhanced cleaning/disinfecting of surfaces.
13. **Construction Site Health Protection.** All construction activities must adhere to the Summit County Building Department COVID-19 Policies and Procedures or the equivalent document within the applicable jurisdiction.

14. **Isolation and Quarantine Requirements for Symptomatic Persons and Exposures**
   a. For purposes of this Order, the following definitions shall apply:
      
      i. “Self-Isolate” is specific to a person with illness and means to stay at home, maintain distance (minimum of 6 feet) away from other household members, do not share a bedroom or bathroom, wear a mask to cover your mouth and nose when in common areas within the household, and do not leave the home unless seeking medical care.
      
      ii. “Self-Quarantine” is specific to a person who does not have symptoms but has been exposed to someone confirmed to have COVID-19 or who is experiencing symptoms, and means to stay home, do not go to public places unless seeking medical care, and avoid contact with other people until the incubation period for COVID-19 is over, for 14 days.

   b. Individuals experiencing symptoms of COVID-19 must Self-Isolate as defined in Section 14(a), above, for a minimum of ten (10) days from the start of symptoms AND 72 hours until fever free (without the use of any fever-reducing medications), PROVIDED that such symptoms are significantly improving. This obligation to self-isolate includes people that have tested positive, people awaiting their test results, and people who have symptoms but have not been tested.

   c. Individuals in close contact with someone with confirmed COVID-19 disease, or a person who has symptoms consistent with COVID-19 but who has not been tested, must Self-Quarantine, as defined in Section 14(a), above, for 14 days at their place of residence. For healthcare workers and others responding to the COVID-19 pandemic, Summit County Public Health will provide more specific guidance.

   d. Employers do not need to and should not require negative test results or a medical release for anyone that has completed the Self-Isolation requirements in subsection 14(b), above, or the Self-Quarantine requirements in subsection 14(c), above, each as applicable.

   e. In the event an employee has confirmed COVID-19 or has symptoms but was not tested, employers should not require testing for any other employees as a condition of employment.

   f. Employers should not otherwise require a negative test result as a condition of employment.
15. **Face Coverings.**

   a. Individuals must wear face coverings that cover nose and mouth whenever:
      
      i. In indoor areas open to the general public or
      ii. Outdoors whenever at least 6 feet of separation cannot be maintained among all individuals.
      iii. Exceptions: cloth face coverings do not need to be worn by persons who are consuming food or beverages, young children under the age of 2, persons with medical conditions that make it difficult to breathe or persons otherwise unable to remove the mask without assistance.

   b. In order to ensure that sufficient supplies of medical face masks are available to health care workers, members of the public are strongly encouraged to use non-medical cloth face coverings, unless a medical face mask is medically necessary.

   c. In accordance with Governor Polis’ Executive Order D 2020 110, employers and operators of places of public accommodation, and those authorized on their behalf, shall have discretion to deny admittance or service and require the removal of any individual who fails to wear a medical or non-medical face covering. Such action shall be applied in a manner consistent with the American Disabilities Act (42 U.S.C. § 12101 et seq.), Title VII of the Civil Rights Act (42 U.S.C. § 2000e et seq.), the Colorado Anti-Discrimination Act (C.R.S. § 24-34-401 et seq.), and any other relevant federal or state law.

16. **Additional Information, Recommendations and Requirements for all Persons.**

   a. **Importance of Public Actions:** These actions are some of the most readily available and effective tools to help slow the spread of the virus in our community – and, importantly, to reduce the number of potential deaths caused by COVID-19. By slowing the spread, we protect our family, friends, and neighbors. In particular, this includes all adults over age 65 and anyone with an underlying health condition.

   These actions will limit the cascading impacts on critical services due to high absenteeism if large numbers of workers become ill. This Order and the actions required or recommended herein will help hospitals, first responders, and other health care services continue to provide services for those who need them (along with utilities, human services, and businesses) in the coming months. Collective action can save lives and is in support of the most vulnerable in our community. The more united we can be in preventing the spread, the greater the benefit for the whole community.

   b. **Importance of Business Actions:** The actions listed in this Order, as well as those outlined in the Summit County Business Physical Distancing Protocol Form and in the State of Colorado Public Health Order, are some of the most readily available and effective tools to help
slow the spread of the virus in our community – and, importantly, to reduce the number of hospitalizations and deaths caused by COVID-19. By slowing the spread, businesses protect their workers and customers and our local economy.

Businesses shall not require, incentivize, encourage or coerce employees, contractors or subcontractors into risking their health by violating this Order, including by working while sick, working without a face covering, working in close quarters with others, or working without proper protective equipment or protocols.

Businesses are strongly encouraged to be supportive of employees who are ordered to self-isolate or quarantine, including by paying them to stay home. Summit County Public Health may publish information about any outbreak at a business so that the public is aware of the extent and nature of disease spread in the community.

17. **Penalties.** Failure to comply with this Order is subject to the penalties contained in Section 25-1-516 and 18-1.3-501, Colorado Revised Statutes, including a fine of up to five thousand ($5,000) dollars and imprisonment in the county jail for up to eighteen (18) months.
