

EXHIBIT A

SECTION 1. REPEAL OF THE CODES.

The following are hereby repealed as part of the Summit County Building Code:

- A) The International Building Code, 2012 edition, as amended, published by the International Code Council Inc.
- B) The International Residential Code, 2012 edition, including Appendix G&K, published by the International Code Council, Inc.
- C) The International Mechanical Code, 2012 edition, including Appendices A, published by the International Code Council, Inc.
- D) The International Plumbing Code, 2012 edition, including Appendices C, E, F and G published by the International Code Council, Inc.
- E) The International Fuel Gas Code, 2012 edition, including Appendices A and B, published by the International Code Council, Inc.
- F) The International Energy Conversation Code, 2012 edition, as amended, published by the International Code Council Inc.

SECTION 2. ADOPTION OF THE CODES.

The following materials are hereby adopted in their entirety as part of the Summit County Building Code, subject to the modifications as set forth in Section 3 herein, directly below:

- A) The International Building Code, 2018 edition, published by the International Code Council, Inc.
- B) The International Residential Code, 2018 edition, including Appendices F, K, and Q published by the International Code Council, Inc.
- C) The International Mechanical Code, 2018 edition, including Appendix A, published by the International Code Council, Inc.
- D) The International Plumbing Code, 2018 edition, published by the International Code Council, Inc.
- E) The International Fuel Gas Code, 2018 edition, including Appendices A and B, published by the International Code Council, Inc.
- F) The International Existing Building Code, 2018 edition, published by the International Code Council, Inc.
- G) The International Energy Conservation Code, 2018 edition, published by the International Code Council, Inc.
- H) The ICC Electrical Code, 2000 edition - Administrative Provisions, published by the International Code Council, Inc.
- I) The International Swimming Pool and Spa code, 2018 edition, as amended, published by the International Code Council Inc.
- J) The Uniform Code for Building Conservation, 1997 Edition, including Appendix Chapter 3, published by the International Conference of Building Officials.
- K) The Uniform Code for the Abatement of Dangerous Buildings, 1997 Edition, published by the International Conference of Building Officials.

SECTION 3. AMENDMENTS.

The codes are hereby made subject to the incorporation of the following additions, deletions and modifications:

2018 INTERNATIONAL BUILDING CODE.

Section 101.1 Title is amended by adding the name, "Summit County".

Section 101.4.3 Plumbing is amended by deleting the last sentence that references the International Private Sewage Disposal Code.

Section 101.4.4 Property Maintenance is deleted in its entirety.

Section 102.6 Existing Structures is amended by removing the reference to the International Property Maintenance Code.

Section 103.2 Appointment is amended to read as follows:

103.2 Building Official . The Building Official is hereby authorized and directed to enforce all of the provisions of this code. Nevertheless, such authorization and direction shall be neither an express nor implicit guaranty that all buildings and structures have been constructed in accordance with all of the provisions of this code, nor be deemed as any representation as to the quality of such buildings or structures in any manner.

Section 103.3 Deputies is amended to read as follows:

103.3 Deputies. In accordance with the prescribed procedures of this jurisdiction, the building official shall have the authority to appoint a deputy building official, related technical officers, inspectors, plan examiners and other employees. Such employees shall have those powers and duties as have been expressly delegated by the building official, subject to modification from time to time.

Section 104.8 Liability is amended by adding the following first paragraph:

The adoption and implementation of this code, as well as any previous Building Construction and Housing Standards adopted by Summit County, shall not be deemed to give rise to a duty of care on the part of any public entity, public employee or agent. Neither this code nor any previous Building Construction and Housing Standards shall create any affirmative duty or be deemed to establish any affirmative representation on behalf of the Board of County Commissioners, the Building Official of the Summit County Government, its employees, officials or agents.

Sections 105.1.1 and 105.1.2 Annual Permit and Annual Permit Records are hereby repealed in their entirety.

Section 105.5 Expiration is amended to read as follows:

105.5 Expiration. (a) Every permit issued by the building official under the provisions of this code shall expire 18 months after the date of issue. The building official is authorized to grant an extension to the validity of such permits, for a period of time not to exceed 18 months. Such extensions shall be based upon written request by an applicant demonstrating, to the discretion of the Building Official, justifiable cause for the extension, and shall be effective as of the day of written approval. In special circumstance deemed by the Building Official, a secondary one year extension beyond the 1st extension may be granted for a fee of 50% of the original building permit fee. (b) Every stand-alone technical (mechanical, electrical, plumbing, fireplace, and photovoltaic) permit issued by the building official under the provisions of this code shall expire 6 months after

the date of issue. Standalone window and hot tub permits issued by the building official under the provisions of this code shall also expire 6 months after the date of issue. **The building official is authorized to grant an extension to the validity of such permits, for a period of time not to exceed 3 months. Such extensions shall be based upon written request by an applicant demonstrating, to the discretion of the Building Official, justifiable cause for the extension, and shall be effective as of the day of written approval.**

Section 107.1 General is amended to read as follows:

107.1 General. Submittal documents consisting of construction documents, statement of special inspections, geotechnical report and other data shall be submitted in one or more sets with each permit application. The construction documents, to include structural analysis, shall be prepared by a registered design professional. The Building Official may waive the requirement for a design professional when it is found that the nature of the work is such that a design professional is not necessary to obtain compliance with the code. Where special conditions exist, the Building Official is authorized to require additional construction documents to be prepared by a registered design professional.

Section 109.2 Schedule of Permit Fees is amended to read as follows:

109.2 Schedule of permit fees. On buildings, structures, electrical, gas, mechanical and plumbing systems or alterations requiring a permit, a fee for each permit shall be paid as required, in accordance with the Summit County Building Inspection Department Fee Schedule.

Section 109.3 Building Permit Valuations is amended to add the following sentence:

109.3 Building permit valuations . The applicant for a permit shall provide an estimated valuation at the time of application. The valuation used for the building permit shall include the valuation of work for which the permit is being issued, including labor and materials, for the plumbing, electrical, gas, mechanical and fireplace systems. If, in the opinion of the building official, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed estimates to meet the approval of the building official. Final building permit valuation shall be set by the building official.

Section 109.4 Work Commencing Before Permit Issuance is amended to read as follows:

109.4 Work commencing before permit issuance. Any person who commences any work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits shall be subject to fees for an investigation in addition to any other required permit fees. The investigation fee shall be as set forth in the Summit County Building Inspection Department Fee Schedule.

Section 110.3.5 Lath and Gypsum Board Inspection is amended by deleting the exception.

Section 110 Inspections is amended by adding a new subsection to read as follows:

110.7 Reinspections . A reinspection fee, as specified in the Summit County Building Inspection Department Fee Schedule, may be assessed for each inspection or reinspection when such portion of work for which inspection is called is not complete or when corrections called for are not made. Reinspection fees may be assessed when any of the following conditions exist:

- a. the inspection record card is not posted or otherwise available on the work site,
- b. the approved plans are not readily available to the inspector,
- c. the applicant fails to provide access on the date for which the inspection is requested, or
- d. deviation from plans requiring the approval of the building official.

In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until the reinspection fees have been paid.

Section 111.3 Temporary Occupancy is amended to read as follows:

111.3.1 Temporary occupancy. The building official may issue a temporary certificate of occupancy before completion of the entire work covered by the permit, if, in the exercise of their discretion, they find that the following standards have been satisfied:

- a. Such portion or portions of the structure subject to the temporary certificate of occupancy may be occupied safely and present no threat of fire or to the life, health, or welfare of the occupants or the public;
- b. Construction of the structure subject to the permit is substantially complete and only minor items of the project remain for full completion and issuance of a full certificate of occupancy;
- c. The general contractor and/or owner requesting a temporary certificate of occupancy have provided sufficient assurances to the building official that the project will reach final completion and certificate of occupancy in a timely manner; and
- d. For any multi-family or multiple unit project, including without limit townhouse and condominium projects, a duplex development, or other projects consisting of five or more units under construction, temporary certificates of occupancy may be issued for no more than forty percent (40%) of those units under construction at any time.

Section 111.3 Temporary Occupancy is amended by adding nine new subsections to read as follows:

111.3.1 Application for temporary occupancy. Prior to obtaining a temporary certificate of occupancy, the applicant must meet the following requirements:

- a. All applications for a temporary certificate of occupancy must be completed and signed by the authorized agent for the general contractor and, where applicable, by the owner of the property in question; and
- b. Prior to the issuance of a temporary certificate of occupancy, the applicant must record in the records of the Summit County Clerk and Recorder a Notice of Temporary Certificate of Occupancy pertaining to the property in question. Upon issuance of a full certificate of occupancy for any project, the building official will issue a full release of said notice, also to be recorded in the records of the Summit County Clerk and Recorder.

111.3.2 Issuance of temporary occupancy . Temporary certificates of occupancy shall be issued for a duration of no longer than six months. Any temporary certificates of occupancy held beyond such six month period shall automatically expire and become null and void.

111.3.3 Fee schedule . Temporary certificates of occupancy shall be subject to the following fee schedule:

- a. For the first two months of such temporary certificate of occupancy, a fee of \$100 per month;
- b. For the third and fourth months of such temporary certificate of occupancy, a fee of \$200 per month;
- c. For the fifth and all subsequent months of such temporary certificate of occupancy, a fee of \$300 per month.

111.3.4 Payment. Payment for such fees shall be made in a cumulative fashion upon issuance of the temporary certificate of occupancy, with a total fee deposit payment of \$1,200.00 due upon such issuance. Applicants who complete all work required for issuance of a full certificate of occupancy and obtain such a certificate of occupancy within such six month period shall be entitled to a pro rata return of their \$1,200.00 fee deposit, calculated on a monthly basis.

111.3.5 Failure to pay fees. Failure to pay the fees as designated herein, or the fees as set forth under previous temporary certificate of occupancy programs administered by the Building Official, in a timely manner may result in the automatic termination and expiration of the temporary certificate of occupancy so issued, in accordance with the provisions of section 111.3.6 below.

111.3.6 Regulatory program. In establishing a regulatory program for the issuance of Building Permits, the Board of County Commissioners of Summit County finds as follows:

- a. Temporary certificates of occupancy issued prior to the adoption of the building regulations as set forth herein fail to properly address issues of great concern, such as the duration of issuance of such temporary certificates of occupancy, assurances for final completion of the project, costs of administration, and public notice of such issuance.
- b. Moreover, the indefinite duration of such temporary certificates of occupancy creates concerns regarding life, health, and safety issues, including but not limited to the potential deterioration of the structures not finally completed.
- c. Accordingly, such temporary certificates of occupancy issued prior to the adoption of this set of building regulations are hereby considered to be legal nonconforming temporary certificates of occupancy.
- d. Given the inherent temporary nature of such temporary certificates of occupancy, the Board of County Commissioners finds that there is no reasonable long term expectation in the continued issuance and effectiveness of such authorizations.
- e. Accordingly, providing an amortization period of one year from the date of adoption of the building regulations set forth herein for the validity of all temporary certificates of occupancy issued prior to such adoption, allows the individual holder of such temporary certificates of occupancy property to enjoy the useful economic advantages of their certificate and take all reasonable steps to achieve a full certificate of occupancy prior to the expiration of such temporary certificate of occupancy.
- f. The amortization schedule contained herein is reasonable, given the balance between the costs involved to the individual holders of such certificates and the general concerns for the public health, safety and welfare served by gradually eliminating all such temporary certificates of occupancy issued under standards which do not meet the current concerns addressed by the building regulations set forth herein.

111.3.7 Existing temporary occupancies . All holders of temporary certificates of occupancy issued prior to the adoption of these building regulations may apply for a temporary certificate of occupancy in accordance with the revised procedure set forth herein at any time during the period in which such preexisting certificates are considered valid in accordance with this section 111.3.5.

111.3.8 Violations. A violation of any of the provisions of this section 111.3 may result in the automatic termination and expiration of the temporary certificate of occupancy so issued, and lead to the commencement of remedial action by the building department, pursuant to Sections 113 and 114 of this Code, Title 30, Article 28, part 2, C.R.S. (2002), and all other available means of enforcement.

111.3.9 Termination. All temporary certificates of occupancy which have been terminated or expired in accordance with this section 111.3 shall be subject to a notice of termination of temporary certificate of occupancy pertaining to the property in question, to be recorded in the records of the Summit County Clerk and Recorder.

Section 111 Certificate of Completion is amended by adding a new subsection to read as follows:

111.5 Certificate of Completion. A Certificate of Completion shall be issued for minor work not directly related to occupancy when such work complies with the provisions of this code and all other laws and regulations implemented by the code enforcement agency.

Section 202 Definitions is amended by adding the following definitions within the alphabetical order of the existing definitions:

LOFT. A habitable room or floor in a building that is open to the room or floor directly below, which may or may not qualify as a mezzanine.

POTENTIAL SLEEPING ROOM. A room or space within a dwelling unit having a floor area, with 5 feet or more of ceiling height, of at least 70 square feet will be considered a sleeping room in accordance with the following:

In a building defined as a dwelling or lodging house, any space or room having two of the following factors shall be considered a sleeping room. In a building defined as an apartment house or hotel, any room or space having one of the following factors shall be considered a sleeping room:

- a. Has walls and doors to separate it from other habitable spaces
- b. Meets the definition of a loft as amended by Summit County
- c. Has a closet or similar provision for clothes storage
- d. Has a full or partial bathroom connected to the space or room, or has a path of travel to a full or partial bathroom which does not first pass through a habitable space.

Rooms or spaces determined by these criteria to be sleeping rooms, regardless of any names, labels, or intended uses proposed by the building designer or owner, shall have emergency escape and rescue opening per the 2018 International Building Code, Section 1030, smoke detectors per Section 907, and carbon monoxide detectors per IBC Section 915.

Any alteration to the room or space previously mentioned will be required to be made permanent in nature. The elimination of doors or closets will be made in such a manner that the construction cannot be readily reinstalled.

STORAGE . A room or space within a dwelling unit available for storing something.

UNFINISHED SPACE . A room or space within a dwelling unit with no interior partition walls, no gypsum board (unless required by code), no finishes (mud, tape, and/or paint) on areas requiring gypsum board, and no floor finishes.

Section 501.2 Address Identification is amended by changing 4" to 5" and by adding the following sentence:

The premise identification characters shall be reflective.

Section 718 Concealed Spaces is amended by adding two new subsections to read as follows:

718.6 Factory-built fireplace enclosures. Combustible construction enclosing factory-built fireplaces with class A chimneys shall be protected on the interior (fireplace) side by one-hour fire resistive construction.

718.7 Factory-built chimney enclosures. Factory-built class A chimneys shall be enclosed within a continuous enclosure protected on the interior (flue) side by not less than one-hour fire resistive construction.

Exception : The portion of the chimney located in the same room as the appliance and the portion of the chimney above the finished roof are not required to be enclosed. However, if they are enclosed, the interior of the shaft shall be protected by one-hour fire resistive construction.

Section 901.5 Acceptable Tests is amended by adding a new subsection to read as follows:

901.5.1 Special inspector required. All fire protection systems required by this code shall be reviewed at plan review, inspected and approved by an authorized representative of the fire department.

Section 1010.1.9.4 Locks and latches item 2.2 is amended to read as follows:

1010.1.9.4 Item 2.2 A readily visible durable sign is posted on the egress side on or adjacent to the door stating: **THIS DOOR TO REMAIN UNLOCKED DURING BUSINESS HOURS.** The sign shall be in letters 1 inch high on a contrasting background.

Section 1106 Parking and Passenger Loading Facilities is amended to read as follows:

1106.1 Required. Where parking is provided, accessible parking spaces shall comply with the applicable parking provisions of Chapter 3 of the Summit County Land Use and Development Code, as enforced by the Summit County Planning Department.

Table 1106.1 Accessible Parking Spaces is hereby repealed in its entirety.

Chapter 12 Interior Environment is amended by adding a new section to read exactly as set forth in Appendix F of the 2018 IRC. This shall be applicable for R2 and R3 occupancies.

Section 1503 Weather Protection is amended by adding a new subsection and an exception to read as follows:

1503.6 Snow-shed barriers. Roofs shall be designed to prevent accumulations of snow from shedding onto exterior balconies, decks, pedestrian and vehicular exits from buildings, stairways, sidewalks, streets, alleys, areas directly above or in front of gas utility or electric utility meters, or adjacent properties.

Exception: Roof areas with a horizontal dimension of no more than 48 inches (1,219 mm) that will not receive snow shedding from a higher roof. The horizontal projection shall be measured perpendicular to the exterior wall line from the edge of the roof or eave to any intersecting vertical surface.

Section 1505.1 General is amended to read as follows:

1505.1 General. All roof coverings on new construction shall be Class A. Class A roof assemblies and roof coverings required to be listed by this section shall be tested in accordance with ASTM E 108 or UL 790. In addition, fire-retardant-treated wood roof coverings shall be tested in accordance with ASTM D 2898.

Table 1505.1 and all footnotes to the table Minimum Roof Covering Classification for Types of Construction are hereby repealed in their entirety.

Section 1507.1 Scope is amended by inserting a new subsection to read as follows:

1507.1.2 Ice dam protection. An ice dam protection underlayment that consists of an approved self-adhering polymer modified bitumen sheet shall be used with all roof coverings. This ice dam protection underlayment shall extend up the slope of the roof from the drip-edge of the roof or eave and cover the entire roof decking surface.

Section 1507.8 Wood Shingles is amended to read as follows:

1507.8 Wood shingles. The installation of wood shingles shall comply with the provisions of this section.

Table 1507.8 Wood Shingle and Shake Installation is hereby repealed in its entirety.

Section 1507.9 Wood Shakes is amended to read as follows:

1507.9 Wood shakes. The installation of wood shakes shall comply with the provisions of this section.

Section 1608.2 Ground Snow Loads is amended to read as follows:

1608.2 Snow loads. The loads to be used in determining the design snow loads for roofs, exterior balconies and decks shall be as indicated in the Summit County Community Development Matrix. There shall be no reduction for duration. **Ground snow load is to not be utilized, and there are no ground snow load reductions.**

Section 1612.3 Establishment of Flood Hazard Areas is amended to read as follows:

1612.3 Establishment of flood hazard areas. To establish flood hazard areas Summit County Government has adopted a flood hazard map and supporting data. The flood hazard map includes areas of special flood hazard as identified by the Federal Emergency Management Agency in an engineering report entitled "The Flood Insurance Study of Summit County," dated November 16th, 2011, as amended or revised with the accompanying Flood Insurance Rate Map (FIRM) and Flood Boundary and Floodway Map (FBFM) and related supporting data along with any revisions thereto. The adopted flood hazard map and supporting data are hereby adopted by reference and declared to be part of this section, subject to modification from time to time to reflect current information of the subject.

Section 1809.5 Frost Protection is amended to add the following sentence:

Frost line of the locality is established as 40 inches below grade.

Section 2113 Masonry Chimneys is amended by adding the following subsections to read as follows:

2113.21 Limitation on the type and number of devices. Solid fuel burning devices that are not properly certified are prohibited in new construction. Outdoor wood-fired hydronic heaters shall not be allowed on properties less than 5 acres. The number of certified solid fuel burning devices that may be installed in newly constructed buildings shall not exceed the following limits:

- a. Detached or attached single family residences: one device per dwelling unit.
- b. Apartments, condominiums, hotel/motel rooms, accessory buildings, accessory apartments, commercial and industrial buildings: no solid fuel burning devices **shall be allowed. One solid fuel-burning device shall be allowed in lobbies of hotels or motels or restaurants.**
- c. In all buildings which are either occupied or have received a current and valid building permit prior to October 1, 1992, the installation of any solid fuel burning device is prohibited if the resulting number of solid fuel burning devices exceeds **the limitations contained in this section. However, such limitations shall not apply** to the replacement of a non-certified solid fuel-burning device with a certified solid fuel-burning device.

CERTIFIED SOLID FUEL BURNING DEVICE is a solid fuel burning device which is certified by the Air Pollution Control Division of the Colorado Department of Public Health and Environment, or one that is approved by the Building Official as meeting the EPA Phase II 'certification' or 'qualification' standard. These standards shall be independently tested by an accredited laboratory to meet the particulate emissions of 7.5 grams per hour for noncatalytic solid fuel building devices, or 4.1 gram per hour for catalytic solid fuel burning appliances. Masonry heaters shall be approved by the state or documentation shall be provided verifying that 'field test results' conducted by an EPA accredited laboratory show no violation of the existing 6.0 grams per kilogram emission standard per State Regulation No.4.

NEW CONSTRUCTION, for the purpose of this section, is construction of a residential, commercial, industrial, agricultural or accessory building. **This shall include any modifications, replacement or relocation of existing solid fuel burning devices.** However, modifications to solid fuel burning devices shall not include repair, replacement or relocation of flue pipe.

SOLID FUEL BURNING DEVICES are any fireplace, stove, firebox, or other device intended and/or used for the purpose of burning wood, coal, pulp, paper, pellets or other non-liquid or non-gaseous fuel.

Section 2113.22 Factory built chimneys

- a. Factory built chimneys shall be supported at intervals not to exceed 10 feet by wall straps or equivalent.
- b. Factory built chimneys shall have the outer wall of adjacent chimney sections fastened **together by three sheet metal screws, installed approximately 120 degrees apart. Such fastenings shall be in addition to and not in lieu of those requirements mandated by the manufacturers' instructions, except when specifically prohibited by those instructions or the terms of their listing.**

Exception : Where approved manufacturers' locking bands are used.

- c. The points of termination of a factory built chimney shall not be within 10 inches vertically of the point of termination of any adjacent chimney or appliance vent within 24 inches **horizontally. No factory built chimney shall terminate closer than 24 inches to combustible finish materials.**

Section 2303.1.11 Round Timber Poles and Piles is amended by adding the following paragraph:

All logs used in a structural capacity must be graded and marked by an approved grading agency, in conformance with DOC PS 20. In lieu of a grade mark, a certificate of an onsite inspection issued by a 3rd party lumber grading or inspection agency may be accepted.

Section 2308.7.13 Wood Trusses is amended by adding the following sentence:

Trusses shall be blocked at bearing points.

Section 2901.1 Scope is amended by deleting the reference to the International Private Sewage Disposal Code.

Section 2308.7.13 Wood Trusses is amended by adding the following sentence:

Trusses shall be blocked at bearing points.

Section 2902.1 Minimum Number of Fixtures is amended to add the following sentences:

An additional single-user toilet facility and bathing room shall be required where only separate sex facilities are provided. When this single-user toilet and bathing room requirement is applicable, the required separate sex toilet and bathtub/ shower counts required by Table 2902.1 is allowed to be reduced by one in the male and female toilet facility and bathing room.

Section (P) 2902.1.2 Single-User Toilet Facility and Bathing Room Fixtures is amended to read exactly as follows:

Section (P) 2902.1.2 Single-User Toilet Facility and Bathing Room Fixtures. The plumbing fixtures located in single-user toilet facilities and bathing rooms, including family or assisted-use toilet and bathing rooms that are required by Section 1109.2, shall contribute toward the total number of required plumbing fixtures for a building or tenant space. Single-user toilet facilities and bathing rooms and family or assisted-use toilet rooms and bathing rooms shall be identified as being open for use to all persons, regardless of gender. A single-occupant restroom is one that contains only one toilet and a sink, or a toilet and urinal with a sink, and is intended for use by one occupant at a time. Family or assisted-use restrooms must also be designated as gender-neutral. All gender neutral bathrooms are to be signed accordingly.

Section 2902.2 Exception 2 Separate Facilities is amended to read as follows:

2902.2 Exception 2. Separate facilities shall not be required in structures or tenant spaces with a total occupant load, including both employees and customers, of 30 or less.

Section (P) 2902.2 Separate facilities is amended to add a fifth exception:

Exception 5. Gender neutral single-user toilet facility and bathing room fixtures.

Chapter 36

The International Building Code is amended to add Chapter 36 to read exactly as set forth in Chapter 45 of the IRC, Fire Mitigation.

2018 INTERNATIONAL EXISTING BUILDING CODE.

Section 101.1 Title is amended by adding the name, "Summit County".

Section 101.4.2 Buildings Previously Occupied is amended by deleting the reference to the International Property Maintenance Code.

Section 103.2 Appointment is amended to read exactly as set forth in IBC Amendment 103.2.

Section 103.3 Deputies is amended to read exactly as set forth in IBC Amendment 103.3.

Section 104.8 Liability is amended to read exactly as set forth in IBC Amendment 104.8.

Section 105.5 Expiration is amended to read exactly as set forth in IBC Amendment 105.5.

Section 108.2 Schedule of Permit Fees is amended to read as follows:

108.2 Schedule of permit fees . The fees for all associated permits shall be in accordance with the Summit County Permit Fee Schedule.

Section 108.6 Refunds is amended to read as follows:

108.6 Refunds . The code official shall authorize the refunding of fees in accordance with the Summit County Permit Fee Schedule.

Section 109 Inspections is amended to add a new subsection.

109.7 Reinspections to read exactly as set forth in IBC Amendment 110.7.

Section 113.4 Violation Penalties is amended to read exactly as set forth in IBC 114.4.

Section 1301.3.2 Compliance with Other Codes is amended by deleting the reference to the International Property Maintenance Code.

Section 1301.4 Investigation and Evaluation is amended to read as follows:

Section 1301.4 Investigation and evaluation. For proposed work covered by this section, the building owner shall cause the existing building to be investigated and evaluated in accordance with the provisions of this section by a design professional licensed to practice in the State of Colorado.

Section 1301.6 Evaluation Process is amended by adding the following first paragraph.

The building owner shall cause the existing building to be evaluated in accordance with the provisions of this section by a design professional(s) licensed to practice in the State of Colorado.

2018 INTERNATIONAL SWIMMING POOL AND SPA CODE

Section 101.1 Title is amended by adding the name, "Summit County".

Section 103.2 Appointment is amended to read exactly as set forth in IBC Amendment 103.2.

Section 103.3 Deputies is amended to read exactly as set forth in IBC Amendment 103.3.

Section 103.4 Liability is amended to read exactly as set forth in IBC Amendment 104.8.

Section 105.5.3 Expiration is amended to read exactly as set forth in IBC Amendment 105.5.

Section 105.6.2 Fee schedule is amended to read as follows:

105.6.2 Fee schedule . The fees for all associated permits shall be in accordance with the Summit County Permit Fee Schedule.

Section 105.6.3 Fee refunds is amended to read as follows:

108.6 Fee refunds . The code official shall authorize the refunding of fees in accordance with the Summit County Permit Fee Schedule.

Section 106.18 Reinspection and testing is amended to read exactly as set forth in IBC Amendment 110.7.

Section 107.4 Violation Penalties is amended to read exactly as set forth in IBC 114.4.

Section 108 Means of Appeal is amended to read exactly as set forth in IBC 113.

2018 INTERNATIONAL RESIDENTIAL CODE.

Section R101.1 Title is amended by adding the name, "Summit County".

Section R101.2 Scope Exception is amended to read as follows:

Section R101.2 E xception. The following shall be permitted to be constructed in accordance with this code.

Section R102.7 Existing Structures is amended by deleting the reference to the International Property Maintenance Code.

Section R103.3 Deputies is amended to read exactly as set forth in IBC amendment 103.3.

Section R104.8 Liability is amended by adding a first paragraph to read exactly as set forth in IBC amendment 104.8.

Section R105.2 #1 Work Exempt from Permit is amended to read exactly as set forth in IBC 105.2 #1.

Section R105.5 Expiration is amended to read exactly as set forth in IBC amendment 105.5.

Section R106.1 Submittal Documents the first paragraph is amended to read exactly as set forth in IBC amendment 107.1.

Section R108.2 Schedule of Permit Fees is amended to read exactly as set forth in IBC amendment 109.2.

Section R108.3 Building Permit V aluations is amended to read exactly as set forth in IBC 109.3 including the amendment.

Section R108.6 Work Commencing Before Permit Issuance is amended to read as set forth in IBC amendment 109.4.

Section R109 Inspections is amended by adding a new subsection to read as set forth in IBC amendment 110.7.

Section R110.4 Temporary Occupancy is amended to read exactly as set forth in IBC amendment 111.3.

Section R202 Definitions is amended by adding the following definitions within the alphabetical order of the existing definitions:

HOMEOWNER BUILDER is hereby defined as any individual who is the owner of the property subject to a building permit if the home is being built for the occupancy of the homeowner builder, and not for the purposes of commercial or residential development. Such homeowner builders may be allowed to pull building and technical permits to perform work on a detached single family residence, exterior decks and detached accessory buildings associated with detached single family residences, based in entirety upon their classification as a Homeowner. It shall be the duty of the individual applying for the permit to establish, to the satisfaction of the Building Official, that he or she is in fact a Homeowner Builder. Family trusts, Limited Liability Corporations and Partnerships do not meet the criteria of a Homeowner Builder, unless agreed to and approved by the Building Official.

Exception: An owner of an attached single family residence may be issued permits as a Homeowner Builder for exterior decks or detached accessory buildings.

The permits for Homeowner Builders may be pulled only after passing the required educational examinations for each permit. Homeowner Builders may pull permits no sooner than 2 years after receiving a certificate of occupancy on any previous project done as a Homeowner Builder, except that the ability to pull permits for alterations or additions to homes owned and occupied by any Homeowner Builder shall not be limited by any such time period constraints.

LOFT is amended to read exactly as IBC amendment 202.

POTENTIAL SLEEPING ROOM is amended to read exactly as IBC amendment 202.

UNFINISHED SPACE. A room or space within a dwelling unit with no interior partition walls, no gypsum board (unless required by code), no finishes (mud, tape, and/or paint) on areas requiring gypsum board, and no floor finishes.

STORAGE A non-habitable room or space within a dwelling unit used for storage. A storage room or space shall not have TV or internet outlets, closets, or other improvements outside of what is typical for storage areas. Light and ventilation is not required in the non-habitable space per code. This space is not approved for living, sleeping, eating or cooking.

TOWNHOUSE A single-family dwelling unit constructed in a group of two or more attached units in which each unit extends from foundation to roof and with a yard or public way on at least two sides.

Table R301.2(1) Climatic and Geographic Design Criteria is amended to read as follows:

TABLE R 301.2 (1) – CLIMATIC AND GEOGRAPHICAL DESIGN CRITERIA

ROOF SNOW LOAD	WIND SPEED MPH ^d	SEISMIC DESIGN CAT ^f	SUBJECT TO DAMAGE FROM			WINTER DESIGN TEMP ^e	ICE BARRIER UNDERLAYMENT REQUIRED ⁱ	FLOOD HAZARDS	AIR FREEZING INDEX ^j	MEAN ANNUAL TEMP ^k
			weathering ^a	frost line depth ^b	termite ^c					
h	115	B	severe	40 inches	slight	-13°	yes	g	2500	35.4°

For SI: 1 pound per square foot = 0.0479 kN/m.0 2, 1 mile per hour = 1.609 km/h.

- (a) Weathering may require a higher strength concrete or grade of masonry than necessary to satisfy the structural requirements of this code. The grade of masonry units shall be determined from ASTM C 34, C 55, C 62, C 73, C 90, C 129, C 145, C 216 or C 652.
- (b) The frost line depth may require deeper footings than indicated in Figure R403.1 (1). This part of the table is filled in depending on whether there has been a history of local damage. Piers supporting only deck with no roof elements may be a minimum of 24” below grade. One story, detached garages, with no plumbing are allowed to have a 18” frost protected, monolithic slab as a foundation.
- (c) This part of the table is filled in depending on whether there has been a history of local damage.
- (d) Wind exposure category shall be determined on a site-specific basis in accordance with Section R301.2.1.4.
- (e) Reflects local climates or local weather experience as determined by the building official.
- (f) Seismic Design Category determined from Section R301.2.2.2.
- (g) Summit County entered into the National Flood Insurance Program on December 16, 1980. The date of the currently effective Flood Insurance Reference Map is November 16, 2018.
- (h) The snow load to be used in the design of roofs or portions of roofs shall be as indicated in the Summit County Building Inspection Department Matrix. There shall be no reduction in snow load for duration. Ground snow load is not to be utilized.
- (i) In accordance with R905.1 as amended.
- (j) From the 100 year (99%) value on the National Climatic Data Center data table “Air Freezing Index- USA Method (Base 32degrees F)”
- (k) From the National Climatic Data Center data table “Air Freezing Index- USA Method (Base 32 degrees F)”

Table R301.5 Minimum Uniformly Distributed Live Loads is amended by deleting exterior balconies, decks and fire escapes from the table and by adding footnote (i) to read as follows:

- (i) The minimum uniformly distributed live loads for exterior balconies, decks and fire escapes shall be as required for roof snow loads.

Section R302.1 is amended to read as follows:

R302.1 Exterior walls. Construction, projections, openings and penetrations of exterior walls of dwellings and accessory buildings shall comply with Table R302.1(1); or dwellings equipped throughout with an automatic sprinkler system installed in accordance with all applicable provisions of the governing fire district's code shall comply with Table R302.1(2).

Table R302.1(2) Exterior Walls Footnote a - Dwellings with Fire Sprinklers is hereby amended to read as follows:

a. For residential subdivisions where all dwellings are equipped throughout with an automatic sprinkler system installed, permitted and inspected to show compliance with all applicable requirements of the governing fire district's code, the fire separation for nonrated exterior walls and rated projections shall be permitted to be reduced to 0 feet, and unlimited unprotected openings and penetrations shall be permitted, where the adjoining lot provides an open setback yard that is 6 feet or more in width on the opposite side of the property line.

Section R302.2.2 Common walls items 1 and 2 are amended to read as follows:

1. Where a fire sprinkler system in accordance with requirements of the governing fire district's code is provided, the common wall shall be not less than a 1-hour fire-resistance-rated wall assembly tested in accordance with ASTM E119, UL 263 or Section 703.3 of the International Building Code.
2. Where a fire sprinkler system in accordance with requirements of the governing fire district's code is not provided, the common wall shall be not less than a 2-hour fire-resistance-rated wall assembly tested in accordance with ASTM E119, UL 263 or Section 703.3 of the International Building Code.

Section R302.13 Exception 1 Fire inspection of floors is amended to read as follows:

R302.13 Exception 1 . Floor assemblies located directly over a space protected by an automatic sprinkler system permitted, installed and inspected as required by the fire district having jurisdiction.

Section R302.13 Exception 2 Fire protection of floors is amended to read as follows:

R302.13 Exception 2. Floor assemblies located directly over a crawlspace with a maximum 4' headroom occurring anywhere within the crawlspace. The headroom shall be measured from grade to the bottom of the floor joists.

Section R310.1 Emergency Escape and Rescue Opening Required exception 2 is amended to read as follows:

2. Where the dwelling or townhouse is equipped with an automatic sprinkler system installed in accordance with the requirements of the governing fire district's code, sleeping rooms in basements shall not be required to have emergency escape and rescue openings provided that the basement has one of the following:
 - 2.1. One means of egress complying with Section R311 and one emergency escape and rescue opening.
 - 2.2. Two means of egress complying with Section R311.

Section R313 is hereby amended to read as follows:

Section R313 Dwelling Unit Fire Sprinkler Systems and Internal Fire Protection .

Section R313 .1 General. All structures under the scope of this code are to be provided sprinkler systems as designated, reviewed, installed and inspected by the applicable Fire District per section R313.1.1 through R313.1.2.

Section R313 .1.1 Sprinklers required. Structures greater than 6,000 square feet are to be sprinklered per the Fire District having jurisdiction. Square footages shall include all attached garages and any detached structures within 3 feet of the residence. Square footage shall be measured from exterior wall to exterior wall. Fire separations within the structure shall not be utilized to reduce the measured square footages of the structure(s).

Section R313 .1.2 Additions. Any addition which increases the total square footage of the residence to greater than 6,600 square feet is to be provided with sprinkler systems at the addition only. Where the size of the addition itself is greater than 6,000 square feet, the addition as well as the existing residence shall be provided with sprinklers. Where the addition increases the total square footage of the residence to greater than 6,600 square feet and the alterations to the existing structure results in the removal of interior wall and ceiling finishes exposing the structure, sprinkler systems shall be retro-fitted into the existing residence as well as the addition.

Section R313.2 Internal fire protection. Residences between 4,000 and 6,000 square feet shall be provided with 5/8" Type 'X' drywall or ½" cementitious board throughout the structure.

Section R319.1 Address Identification is amended to read as follows:

R319.1 Address identification. Approved numbers or addresses shall be provided for all new and altered buildings in such a position as to be plainly visible and legible from the street or road fronting the property. Address characters shall be reflective, at least five inches (127 mm) in height and shall be of a color that contrasts with the background on which they are mounted.

Section 324.6.2.1 Alternative Setback at Ridge shall be amended to read as follows:

R324.6.2.1 Alternative setback at ridge. Where an automatic sprinkler system is installed within the dwelling in accordance with NFPA 13D or all applicable requirements of the governing fire district's code, setbacks at ridges shall comply with one of the following:

1. For photovoltaic arrays occupying not more than 66 percent of the plan view total roof area, not less than 18-inch (457 mm) clear setback is required on both sides.
2. For photovoltaic arrays occupying more than 66 percent of the plan view total roof area, not less than a 36-inch (914 mm) clear setback is required on both sides of a horizontal ridge.

Section R325.3 Area Limitation exception is amended to read as follows:

Section R325.3 exception. The aggregate area of a mezzanine located within a dwelling unit equipped with a fire sprinkler system in accordance with the requirements of the governing fire district's code shall not be greater than one-half of the floor area of the room, provided that the mezzanine meets all of the following requirements:

1. Except for enclosed closets and bathrooms, the mezzanine is open to the room in which such mezzanine is located.
2. The opening to the room is unobstructed except for walls not more than 42 inches (1067 mm) in height, columns and posts.
3. The exceptions to Section R325.5 are not applied.

Section R403.1.7 Footings on or Adjacent to Slopes is deleted in its entirety; refer to the Summit County Land Use Development Code for all applicable engineering regulations.

Section R502.1.1 Sawn Lumber is amended to read as follows:

R502.1.1 Sawn lumber. Sawn lumber, dimension lumber and logs for joists, beams and girders shall be identified by a grade mark of a lumber grading or inspection agency that has been approved by an accreditation body that complies with DOC PS 20. In lieu of a grade mark, a certificate of inspection issued by a lumber grading or inspection agency meeting the requirements of this section may be accepted.

Section R602.1.1 Sawn Lumber is amended to read as follows:

R602.1.1 Sawn lumber. Sawn lumber, dimension lumber and logs for studs, plates and headers shall be identified by a grade mark of a lumber grading or inspection agency that has been approved by an accreditation body that complies with DOC PS 20. In lieu of a grade mark, a certificate of inspection issued by a lumber grading or inspection agency meeting the requirements of this section may be accepted.

Section R802.1.1 Sawn Lumber is amended to read as follows:

R802.1.1 Sawn lumber. Sawn lumber, dimension lumber and logs for rafters, trusses and ceiling joists shall be identified by a grade mark of a lumber grading or inspection agency that has been approved by an accreditation body that complies with DOC PS 20. In lieu of a grade mark, a certificate of inspection issued by a lumber grading or inspection agency meeting the requirements of this section may be accepted.

Section R802.10.3 Bracing is amended to read as follows:

Trusses shall be blocked at bearing points.

Section R902.1 Roofing Covering Materials is amended to read as follows:

R902.1 Roofing covering materials. Roofs shall be covered with materials as set forth in Sections R904 and R905. Class A roofing shall be installed on all new buildings. Class A roofing required to be listed by this section shall be tested in accordance with UL 790 or ASTM E 108. Roof assemblies with coverings of brick, masonry, slate, clay or concrete roof tile, exposed concrete roof deck, ferrous or copper shingles or sheets, and metal sheets and shingles, shall be considered Class A roof coverings. Where required for roof drainage, scuppers shall be placed level with the roof surface in a wall or parapet. The scupper shall be located as determined by the roof slope and contributing roof area.

Section R905.1.2 Ice Barriers is amended to read as follows:

R905.1.2 Ice barriers. An ice dam protection underlayment that consists of an approved self-adhering polymer modified bitumen sheet shall be used with all roof coverings. This ice dam protection underlayment shall extend up the slope of the roof from the drip-edge of the roof or eave and cover the entire roof decking surface.

Section R1004.4 Unvented Gas Log Heaters is amended to read as follows:

R1004.4 Unvented gas log heaters. Installation of unvented gas log heaters is prohibited.

Section R1004 Factory-Built Fireplaces is amended by adding a new subsection R1004.6 to read exactly as set forth in IBC amendment 718.6 and 718.7.

Section R1005 Factory-Built Chimneys is amended by adding three new subsections to read as follows:

R1005.9 Factory-built chimney enclosures is to read exactly as set forth in IBC amendment 718.7.

R1005.10 Limitations on the type and number of devices is to read exactly as set forth in IBC amendment 2113.21.

R1005.11 Factory built chimney is to read exactly as set forth in IBC amendment 2113.22.

Section N1101.4. Above Code Programs. is amended by adding section N1101.4.1 (IECC)

Section N1101.4.1. Summit Sustainable Building Code. (SSBC) All new structures defined as a Residential Building under Section N1101.6 of this chapter shall be designed and comply with the Department of Energy Zero Energy Ready Home National Program.

Exception: All new residential structures defined per section N1101.4.1 (IECC R102.1.1.1) shall register and submit to be reviewed and inspected through the Department of Energy Zero Energy Ready Home National Program as a training exercise per the Summit County Building

Department. The training exercise program will be effective July 1st, 2020 through December 31st, 2021 for first time applicants

Section N1101.4.2. All new structures defined as a Residential Building under Section N1101.6 of this chapter shall be designed and comply to amended section N1104.2

Table N1102.1.2 (IECC R402.1.2) Insulation and Fenestration Requirements by Component

Fenestration U-Factor column is amended to add 0.32 for replacement fenestrations or new fenestrations being installed is 60% or less of the existing rough openings in additions, alterations or repairs. for Climate Zone 7 and 8.

Table N1102.1.2 (IECC R402.1.2) Insulation and Fenestration Requirements by Component is amended to add the following footnote:

Table N1102.1.2 footnote j R23 Blown in bibles are permitted to be installed in walls in lieu of the R20+5. If utilizing the R23, the roof/ceiling insulation reductions detailed in N1102.2.1 and N1102.2.2 are not allowed. This footnote is only applicable for alterations or remodels with a square footage of 1500sf or less.

Section N1102.2.10 (IECC R402.2.10) Slab-on-Grade Floors is amended to read as follows:

N1102.2.2.10 (IECC R402.2.10) Slab-on-grade floors. Slab-on-grade floors with a floor surface less than 40 inches below grade shall be insulated in accordance with Table N1102.1.2. The insulation shall extend downward from the top of the slab on the outside or inside of the foundation wall. Insulation located below grade shall be extended the distance provided in Table N1102.2.2 by any combination of vertical insulation, insulation extending under the slab or insulation extending out from the building. Insulation extending away from the building shall be protected by pavement or by a minimum of 10 inches of soil. The top edge of the insulation installed between the exterior wall and the edge of the interior slab shall be permitted to be cut at a 45-degree (0.79) angle away from the exterior wall.

Section N1104 is amended by adding section N1104.2:

N1104.2 Electric Vehicle (EV) charging for new construction. New construction shall facilitate future installation and use of Electric Vehicle Supply Equipment (EVSE) in accordance with the National Electrical Code (NFPA 70).

N1104.2.1 One- to two-family dwellings and townhouses. For each dwelling unit, provide at least one EV Ready Space. The branch circuit or raceway shall be identified as "EV Ready" in the service panel or subpanel directory, and the termination shall be marked as "EV Ready." The rough and final inspection shall include a blanked electrical box, and a raceway terminating in the electrical panel.

N1107.1 (R501.1) Scope. is amended by adding section R501.1.2

N1107.1.1 (R501.1.2) Additions and alterations . Additions and interior alterations to an existing building where the total valuation is \$50,000. & over an energy audit shall be provided for the existing structure prior to permit issuance. The energy audit recommendations and/or conclusions may but shall not affect the scope of the work submitted for permit.

Exception: Approved energy audit performed on the dwelling within the last five years, Certified energy star rated homes or equivalent certifications approved by the building official. Re-roofs, exterior siding and deck additions or deck alterations or deck repairs.

Section M1701 General is amended to add a new subsection to read as follows:

M1701.3 Combustion air terminations. All combustion air terminations shall be a minimum of 36 inches above finished ground level.

Section M1804.2.5 Direct Vent Terminations is amended to add the following sentence:

The bottom of the vent terminal shall be located at least 36 inches above finished ground level.

Section M1804.2.6 (4) Mechanical Draft Systems is amended to read as follows:

M1804.2.6 (4) Mechanical draft systems. The bottom of the vent terminal shall be located at least 36 inches above finished ground level.

Section M2002.4 Flood-Resistant Installation is amended to add the following sentence:

All mechanical rooms (boiler, water heater, and furnace rooms) are to be provided with a floor drain.

Section M2101.10 Tests is amended by adding the following sentence at the end of the paragraph: Hydronic tubing may be tested with a 50 (psi) air test for 30 minutes.

Section M2103. 4 Testing is amended by adding the following sentence at the end of the paragraph: Hydronic tubing may be tested with a 50 (psi) air test for 30 minutes.

Section M2105. 28 Testing is amended by adding the following sentence at the end of the paragraph: Assembled loop systems may be tested with a 50 (psi) air test for 30 minutes.

Section G2406.2 Prohibited Locations is amended to eliminate exceptions 3 and 4.

Section G2406.3 Outdoor Locations is amended to add the following sentence: All exterior fire pits and fireplaces shall not be installed on or under combustible structures unless the entire appliance is listed and tested as one unit for that application.

Section G2407.11 #8 Combustion Air Ducts is amended to read as follows:

#8. Combustion air intake openings located on the exterior of a building shall have the lowest side of such openings located not less than 36 inches vertically from the adjoining finished ground level.

Section G2417.4.1 Test Pressure is amended to read as follows:

G2417.4.1 Test pressure. The test pressure to be used shall be not less than one and one-half times the proposed maximum working pressure, but not less than 10 psig (69 kPa gauge) for threaded pipe, 60 psig for welded pipe, irrespective of design pressure. Where the test pressure exceeds 125 psig (862 kPa gauge), the test pressure shall not exceed a value that produces a hoop stress in the piping greater than 50 percent of the specified minimum yield strength of the pipe.

Section G2425.8 Equipment Not Required to be Vented is amended to eliminate item #7: Room heaters listed for unvented use.

Section G2427.4.1 Plastic Piping is amended to add the following sentence: All plastic piping used as vents or combustion air is to be tested with a 5 psi air test for 15 minutes.

Section 2427.8 #2 Venting System Termination Location is amended to read as follows:

#2. A mechanical draft venting system, excluding direct-vent appliances, shall terminate not less than 4 feet below, 4 feet horizontally from, or 1 foot above any door, operable window or gravity air inlet into any building. The bottom of the vent terminal shall be located not less than 36 inches above finished ground level.

Section G2432 General is amended by adding a new subsection to read as follows:

G2432.4 Gas logs. Gas logs may be installed in solid-fuel-burning fireplaces provided:

- a. The gas log is installed in accordance with the manufacturer's installation instructions.
- b. If the fireplace is equipped with a damper it shall either be removed or welded in an open position.
- c. The flue passageway shall be not less than 1 square inch per 2,000 Btu/h input and not more than 4 square inches per 2,000 Btu/h input.

- d. Gas logs shall be equipped with a pilot and shall have a listed safety shutoff valve.
- e. Gas logs shall be vented with a Class A Chimney.
- f. Gas logs may be installed in factory-built fireplaces only when (a) the fireplace and gas logs are listed for use together as an individual unit (b) the fireplace is approved for use with any listed gas log or (c) the fireplace manufacturer provides prior written approval for the installation.
- g. Gas logs shall be provided with a motorized damper interlocked with the electronic ignition of the unit.

Exception : The installation of gas logs in factory built fireplace units for which the manufacturer cannot be identified or located may be approved by the building official in her or his discretion. Any approval shall be based at a minimum, on written evidence submitted by the gas log manufacturer that the installation of their product will not compromise the integrity of the existing fireplace.

Section G2433 Log Lighters is amended to read as follows:

G2433 Log lighters are prohibited.

Exception: Log lighters are allowed if listed as a component of EPA phase II appliances and approved by the Building Official.

Section G2445 Unvented Room Heater is amended to read as follows:

G2445 Prohibited installation. Installation of unvented room heaters is prohibited.

Section P2503.5.1 the first paragraph is amended to read as follows:

P2503.5.1 Rough plumbing. DWV systems shall be tested upon completion of the rough piping installation by water or by air with no evidence of leakage. Either test shall be applied to the drainage system in its entirety or in sections after rough piping has been installed, as follows:

Section P2503.6 Shower Liner Test: This section is deleted in its entirety.

Section P2503.7 Water-Supply System Testing is amended to read as follows:

P2503.7 Water-supply system testing . Upon completion of the water-supply system or a section of it, the system or portion completed shall be tested and proved tight under a water pressure of not less than the working pressure of the system or, for piping systems, by an air test of not less than 50 psi. This pressure shall be held for not less than 15 minutes. The water used for tests shall be obtained from a potable water source.

Section 2603.5.1 Sewer Depth is amended to read as follows:

P2603.5.1 Sewer depth. Building sewers that connect to private sewage disposal systems shall be protected in accordance with Summit County Environmental Health regulations.

Section P2801.6.2 Pan Drain Termination is amended to read as follows:

P2801.6.2 Pan drain termination. The pan drain shall extend full-size and terminate over a suitably located indirect waste receptor or floor drain. All water heater rooms shall be equipped with a floor drain.

Section P2804.6.1 #5 Requirements of discharge pipe is amended to read as:

#5. Discharge to the floor, to the pan serving the water heater or storage tank or to a waste receptor.

Section P2904 Dwelling Unit Fire Sprinkler Systems is repealed in its entirety.

Sections P2910, P2911, P2912, P2913, and P3009 Nonpotable Water Systems, On-Site Nonpotable Water Reuse Systems, Nonpotable Rainwater Collection and Distribution Systems, Reclaimed Water Systems, and Subsurface Landscape Irrigation Systems are amended to add the following sentence:

All non-potable water sources and reclaimed water systems are to be compliant to this code and the latest version of any amendments to State of Colorado plumbing code as adopted by the state plumbing board.

Chapters 34 35 36 37 38 39 40 41 42 and 4 3 General Requirements, Electrical Definitions, Services, Branch Circuit and Feeder Requirements, Wiring Methods, Power and Lighting Distribution Devices and Luminaires, Appliance Installation, Swimming Pools, Class 2 Remote-Control, Signaling and Power-Limited Circuits are repealed in their entirety.

Chapter 45 Fire Hazard Mitigation Requirement for New Construction The International Residential Code is amended by adding a new chapter as follows:

CHAPTER 45

FIRE HAZARD MITIGATION REQUIREMENT FOR NEW CONSTRUCTION

SECTION 4501

GENERAL

4501.1 Purpose. The purpose of this chapter is to establish minimum design and construction standards for the protection of life and property from fire, within the Wildland Urban **Interface**. These provisions are meant to aid in the prevention and suppression of fires and lessen the hazards to structures from wildland fires as well as the hazards to wildlands from structure fires.

4501.2 Scope. All new building construction, including any additions and decks, shall be compliant to the applicable provisions of Sections 4501.2.1 through 4501.2.6.

Exception: Temporary buildings and buildings or structures used for the sole purpose of providing shelter for agricultural implements, farm products, livestock or poultry.

4501.2.1 Class A roof. A Class A roof shall be provided on all structures.

4501.2.2 Roof repair. The roof covering on buildings or structures in existence prior to adoption of this code that are replaced or have 25 percent or more replaced in a 12-month period shall be replaced with a roof assembly that complies with a Class A rating when tested in accordance with ASTM E 108 or UL790.

4501.2.3 Gutters and downspouts. Gutters and downspouts shall be constructed of noncombustible material. Gutters shall be provided with an approved means to prevent the accumulation of leaves and debris in the gutter.

4501.2.4 Exterior glazing. Exterior windows, window walls and glazed doors, windows within exterior doors, and skylights shall be tempered glass, multilayered glazed panels, glass block or have a fire protection rating of not less than 20 minutes.

4501.2.5 Soffit and gable vents. All soffit and gable vents shall have a maximum 3/16 inch opening.

4501.2.6 Defensible space. A defensible space shall be provided as specified in the Sections (add Section numbers):

4501.2.6.1 General. The property shall be divided into three zones. These zones are (Figure 1):

FIGURE 1

4501.2.6.1.1 The Immediate Zone -- 0 to 5 feet from the furthest attached exterior point of the home. This is the most important zone of the defensible space, according to the Firewise® program, to take immediate action on as it is the most vulnerable to embers. The following specific standards apply to the creation of defensible space within the Immediate Zone:

4501.2.6.1.1.1 All dead and diseased trees, shrubs, and other landscaping materials shall be removed.

4501.2.6.1.1.2 All vegetation and combustible and flammable materials shall be moved away from exterior walls, under the eaves, and/or decks. This includes: mulch, ground fuels, flammable plants, leaves and needles, firewood piles.

4501.2.6.1.2 The Intermediate Zone -- 5 to 30 feet from the furthest attached exterior point of the home. This is the landscaping/hardscaping zone of the defensible space through the use of careful landscaping or creating breaks that can help influence and decrease fire behavior. The following specific standards apply to the creation of defensible space within the Intermediate Zone:

4501.2.6.1.2.1 All dead and diseased trees, shrubs, and other landscaping materials shall be removed. Removal of ladder fuels (vegetation under trees) shall occur so a surface fire cannot reach the crowns of the trees.

4501.2.6.1.2.2 Limb up trees to a height of 10 feet. For shorter trees, trim to a height of 1/3 the overall tree height.

4501.2.6.1.2.3 Trees shall be spaced to have a minimum of eighteen feet between the crowns with the distance increasing with the percentage of slope.

4501.2.6.1.2.4 Firewise® trees and shrubs in this zone should be limited to small clusters of a few each to break up the continuity of the vegetation across the landscape.

4501.2.6.1.2.5 Irrigated trees, shrubs, and other landscaping material shall be preserved if they are limbed to remove dead branches and well-spaced to reduce the risk of a fire spreading to other vegetation or structures.

4501.2.6.1.3 The Extended Zone up to 60 Feet -- 30 to 60 feet and 60 feet to the property line from the furthest attached exterior point of the home. This zone focuses on interrupting a fire's path and keeping the flames smaller and on the ground. The following

specific standards apply to the creation of defensible space within the Extended Zone up to 60 feet:

4501.2.6.1.3.1 All dead and diseased trees, shrubs, and other landscaping materials shall be removed.

4501.2.6.1.3.2 The accumulation of ground litter and debris shall be disposed of or dispersed.

4501.2.6.1.3.3 Small conifers growing between mature trees shall be removed.

4501.2.6.1.3.4 Vegetation adjacent to storage or other outbuildings shall be removed.

4501.2.6.1.3.5 Trees shall be spaced to have a minimum of twelve feet between the crowns with the distance increasing with the percentage of slope.

4501.2.6.1.4 The Extended Zone Over 60 Feet -- This zone focuses on interrupting a fire's path and keeping the flames smaller and on the ground. The following specific standards apply to the creation of defensible space within the Extended Zone over 60 feet:

4501.2.6.1.4.1 All dead and diseased trees, shrubs, and other landscaping materials shall be removed.

4501.2.6.1.4.2 The accumulation of ground litter and debris shall be disposed of or dispersed.

4501.2.6.1.4.3 Small conifers growing between mature trees shall be removed.

4501.2.6.1.4.4 Vegetation adjacent to storage or other outbuildings shall be removed.

4501.2.6.1.4.5 Trees shall be spaced to have a minimum of six feet between the crowns with the distance increasing with the percentage of slope.

Exception: Nothing in this chapter shall require the removal of healthy trees, shrubs, and other landscaping materials required by a Town or the County as part of an approved landscaping plan. The removal of landscaping is limited by a property line.

4501.3 Fees. The fees for fire hazard mitigation inspections shall be in accordance with the Summit County Building Department Fee Schedule, and collected by the Fire District having jurisdiction.

SECTION 4502

DEFINITIONS

For the purpose of this chapter, certain terms are defined as follows:

AUTHORITY HAVING JURISDICTION (AHJ) is defined as Summit County Government or one of its designated representatives.

BUILDING SIZE as referenced in Section 4504 is the total floor area. Square footages shall include all attached garages and any detached structures within 3' of the residence. Square footage shall be measured from exterior wall to exterior wall.

DEFENSIBLE SPACE Defensible space is the natural or landscaped area around a dwelling or other structure that has been modified to reduce the spread of fire from an approaching wildland

fire, or to reduce a structure fire from moving into the surrounding vegetation. Creating Defensible Space does not usually require the removal of all trees or other vegetation.

FIRE WISE LANDSCAPING is defined as trees, shrubs, and other materials which meet the criteria for fire-resistant landscaping.

GROUND FUELS. All combustible materials such as grass, duff, loose surface litter, tree or shrub roots, rotting wood, leaves, peat, or sawdust that typically support combustion.

MITIGATION. Action that moderates the severity of a fire hazard or risk.

STRUCTURE IGNITION ZONE. The area around a specific structure and associated accessory structures, including all vegetation that contains potential ignition sources and fuels.

TREE CROWN is the needle or leaf bearing part of a tree. The crown edge is the tree's drip edge.

WELL-SPACED means that the space between the crowns of trees, or between the crowns of trees and the center point of other landscaping, is adequate to reduce the risk of a fire spreading to other vegetation or structures. The adequacy of spacing depends upon slopes, vegetation size, vegetation types (trees, shrubs, grass), and other fuel characteristics (including, but not limited to, fuel compaction and chemical content). In general, a minimum of ten-feet between the widest portion of the crowns of individual trees or groups of trees is adequate. Additional spacing may be required on steeper slopes.

WILDLAND-URBAN INTERFACE. The Wildland Urban Interface or WUI is defined as the line, area, or zone where structures and other human development meet or intermingle with undeveloped lands or vegetative fuels or as otherwise defined in the County Wildfire Protection Plan.

2018 INTERNATIONAL MECHANICAL CODE:

Section 101.1 Title is amended by adding the name, "Summit County".

Section 103.2 Appointment is amended to read exactly as set forth in IBC Amendment 103.2.

Section 103.3 Deputies is amended to read exactly as set forth in IBC Amendment 103.3.

Section 103.4 Liability is amended to read exactly as set forth in IBC Amendment 104.8.

Section 106.4.3 Expiration is amended to read exactly as set forth in IBC Amendment 105.5.

Section 106.4.4 Extensions is hereby repealed in entirety.

Section 106.5.2 Fee Schedule is amended to read as follows:

106.5.2 Fee schedule. The fees for mechanical work shall be in accordance with the Summit County Building Department Fee Schedule.

Section 106.5.3 Fee Refunds is amended to read as follows:

106.5.3 Fee refunds . The code official shall authorize the refunding of fees in accordance with the Summit County Building Department Fee Schedule.

Section 107.2 Inspections and Testing is amended to add a new subsection to read as follows:

107.2.6 Reinspections is to read exactly as set forth in IBC Amendment 110.7.

Section 108.4 Violation Penalties is amended to read exactly as set forth in IBC 114.4.

Section 108.5 Stop Work Orders is amended to read exactly as set forth in IBC 115.

Section 109 Means of Appeal is hereby repealed in its entirety and reenacted to read exactly as set forth in IBC section 113.

Section 301 General is amended to add a new subsection to read as follows:

301.19 Floor drains. All mechanical rooms (furnace, boiler, water heater rooms) shall be provided with a floor drain.

Section 701 General is amended by adding a new subsection to read as follows:

701.2 Terminations. Vent and combustion air ducts shall terminate a minimum of 36" above finished ground level.

Section 804.3.4 Horizontal Terminations is amended by changing #6 to read as follows:

#6. The bottom of the vent termination shall be located not less than 36 inches above finished grade.

Section 805 Factory Built Chimneys is amended by adding a new section to read exactly as set forth in IBC Amendments 718.6, 718.7, and 2113.22.

Section 903.3 Unvented Gas Log Heaters is amended to read as follows:

903.3 Unvented gas log heaters. Unvented gas log heaters are prohibited.

Section 905 Fireplace Stoves and Room Heaters is amended by adding a new subsection as follows:

905.4 Limitation on the type and number of devices is to read exactly as set forth in IBC Amendment 2113.21.

Section M1208.1 Testing is amended by adding a sentence at the end of the paragraph as follows:

Hydronic tubing may be tested with a 50 (psi) air test for 30 minutes.

2018 INTERNATIONAL PLUMBING CODE.

Section 101.1 Title is amended by adding the name "Summit County".

Section 101.3 Intent is amended to add the following:

The intent of this code is to meet or exceed the requirements of the State of Colorado Plumbing Code. When technical requirements, specifications or standards in the Colorado Plumbing Code conflict with this code, the more restrictive shall apply.

Section 103.2 Appointment is amended to read exactly as set forth in IBC Amendment 103.2.

Section 103.3 Deputies is amended to read exactly as set forth in IBC Amendment 103.3.

Section 103.4 Liability is amended to read exactly as set forth in IBC Amendment 104.8.

Section 106.5.3 Expiration is amended to read exactly as set forth in IBC amendment 105.5.

Section 106.5.4 Extensions is hereby repealed in its entirety.

Section 106.6.2 Fee Schedule is amended to read as follows:

106.6.2 Fee schedule. The fees for plumbing work shall be in accordance with the Summit County Building Department Fee Schedule.

Section 106.6.3 Fee Refunds is amended to read exactly as set forth in IMC amendment 106.5.3.

Section 107.2 Required Inspections and Testing is amended to add a new subsection as follows:

107.2.6 Reinspections is to read exactly as set forth in IBC amendment 110.7.

Section 108.4 Violation Penalties is amended to read exactly as set forth in IBC 114.4.

Section 108.5 Stop Work Orders is amended to read exactly as set forth in IBC 115.

Section 109 Means of Appeal is repealed in its entirety and reenacted to read exactly as set forth in IBC section 113.

Section 301 General is amended to add a new subsection as follows:

301.8 Floor drains. All mechanical rooms (furnace, boiler, water heater rooms) shall be provided with a floor drain.

Section 305.4.1 Sewer Depth is amended to read as follows:

305.4.1 Sewer depth. Building sewers shall be installed in accordance with the standards and subject to the approval of the governing Sanitation District.

Section 312.3 Drainage and Vent Air Test is amended to delete the first sentence: 'Plastic pipe shall not be tested using air.'

Section 312.5 Water Supply System Testing is amended to delete the portion of the sentence reading "for piping systems other than plastic".

Section 312.6 Gravity Sewer Test is amended to read as follows:

312.6 Gravity sewer test. Testing of the building sewer shall be in accordance with the standards and subject to the approval of the governing Sanitation District.

Section 312.7 Forced Sewer Test is amended to read as follows:

312.7 Forced sewer test. Testing of the building sewer shall be in accordance with the standards and subject to the approval of the governing Sanitation District.

Section 312.9 Shower Liner Test is hereby repealed in its entirety.

Section 403.1 Minimum Number of Fixtures is amended to add the sentence as set forth in IBC amendment 2902.1.

Section 403.2 Separate Facilities is amended to add a fourth exception:

Exception : 4. Gender neutral single-user toilet facility and bathing room fixtures.

Section 403.2.1 Family or Assisted-Use Toilet Facilities Serving as Separate Facilities is amended to read exactly as set forth in IBC amendment 2902.1.2.

Section 504.7.2 Pan Drain Termination is amended to read as follows:

504.7.2 Pan drain termination. The pan drain shall extend full-size and terminate over a suitably located indirect waste receptor or floor drain.

Section 608.18 Protection of Individual Water Supplies is amended to read as follows:

608.18 Protection of individual water supplies. An individual water supply shall be located and constructed so as to be safeguarded against contamination in accordance with Summit County Environmental Health regulations.

Section 608.18.1 through 608.18.8 are deleted.

Section 610.1 General is amended to read as follows:

610.1 General. New or repaired potable water systems shall be purged of deleterious matter and disinfected prior to utilization. The method to be followed in accordance with this requirement shall be that method or methods prescribed by the governing water authority.

Section 701.2 Connection to Sewer Required is amended to read as follows:

701.2 Connection to sewer required. Every building in which plumbing fixtures are installed and as well as all premises having drainage piping shall be connected to a public sewer, where

available, or an approved private sewage disposal system in accordance with Summit County Environmental Health Department requirements.

Section 903.1 Roof Extension is amended to add 12 inches.

Chapter 13 and 14 Nonpotable Water Systems and Subsurface Landscape Irrigation Systems are amended to add the following sentence:

All non-potable water sources and reclaimed water systems are to be compliant to this code and the latest version of any amendments to State of Colorado plumbing code as adopted by the state plumbing board.

2018 INTERNATIONAL FUEL GAS CODE

Section 101.1 Title is amended by adding the name, "Summit County".

Section 103.2 Appointment is amended to read exactly as set forth in IBC Amendment 103.2.

Section 103.3 Deputies is amended to read exactly as set forth in IBC Amendment 103.3.

Section 103.4 Liability is amended to read exactly as set forth in IBC Amendment 104.8.

Section 106.5.3 Expiration is amended to read exactly as set forth in IBC Amendment 105.5.

Section 106.5.4 Extensions is hereby repealed in its entirety.

Section 106.6.2 Fee Schedule is amended to read as follows:

106.6.2 Fee schedule. The fees for fuel gas work shall be in accordance with the Summit County Building Department Fee Schedule.

Section 106.6.3 Fee Refunds is amended to read exactly as set forth in IMC amendment 106.5.3.

Section 107.2 Required Inspections and Testing is amended to add a new subsection to read as follows:

107.2.6 Reinspections to read exactly as set forth in IBC amendment 110.7.

Section 108.4 Violation Penalties is amended to read exactly as set forth in IBC 114.4.

Section 108.5 Stop Work Orders is amended to read exactly as set forth in IBC 115.

Section 109 Means of Appeal is hereby repealed in its entirety and reenacted to read exactly as set forth per IBC section 113.

Section 303.2 Hazardous Locations is amended to add a sentence to read as follows:

Section 303.2 Hazardous locations. All exterior fire pits and fireplaces shall not be installed on or under combustible structures unless the entire appliance is listed and tested as one unit for that application.

Section 303.3 Prohibited Locations is amended to eliminate exceptions 3 and 4.

Section 304.11 Combustion Air Ducts #8 is amended to read as follows:

#8. Combustion air intake openings located on the exterior of a building shall have the lowest side of such openings located not less than 36 inches above finished ground level.

Section 406.4.1 Test Pressure is amended to read exactly as set forth in IRC Amendment G2417.4.1

Section 501.8 Equipment Not Required to be Vented is amended to eliminate exceptions 8 and 10.

Section 503.4.1 Plastic Piping is amended to add the following sentence:

All plastic piping used as vents or combustion air is to be tested with a 5 psi air test for 15 minutes.

Section 503.8 Venting System Termination Location is amended to add a sentence that reads as follows: (applicable to items 2 and 3)

The bottom of all vent terminations and air intakes shall be located not less than 36 inches above finished ground level.

Section 506 Factory Built Chimneys is amended by adding new subsections to read exactly as set forth in IBC Amendments 718.6, 718.7, 2113.21 and 2113.22.

Section 602.1 General is amended to read as follows:

602.1 General. Decorative appliances for installation in approved solid fuel-burning fireplaces shall be tested in accordance with ANSI Z21.60 and shall be installed in accordance with the manufacturer's installation instructions.

Section 602 Decorative Appliances for Installation in Fireplaces is amended by adding a new subsection **602.4 Gas logs** to read exactly as set forth in as IRC Amendment G2432.

Section 603.1 General is amended to read as follows:

603.1 General. Log lighters are prohibited.

Section 618.4 Prohibited Sources is amended to add a subsection as follows:

Section 618.4.1 Outside Air Sources. Outside air shall be obtained from an exterior opening located not less than 36 inches above finished ground level.

Section 621 Unvented Room Heaters is hereby repealed in its entirety.

Section 634 Chimney Damper Opening Area is hereby repealed in its entirety.

2000 ICC ELECTRICAL CODE - ADMINISTRATIVE PROVISIONS.

Section 101.1 Title is amended to read as follows:

101.1 Title. These regulations shall be known as the ICC Electrical Code™- Administrative Provisions of Summit County and shall be cited as such. The ICC Electrical Code™ - Administrative Provisions in combination with the separately adopted National Electrical Code will be referred to herein as "this code" The ICC Electrical Code™ - Administrative Provisions in combination with the separately adopted National Electrical Code will be referred to throughout all other building construction and housing standards adopted by Summit County as the ICC Electrical Code.

Section 201.3 Terms Defined in Other Codes is amended to delete the reference to the International Energy Conservation Code, the International Private Sewage Disposal Code, and the International Property Maintenance Code.

Section 301.2 Building Official is amended to read exactly as set forth in IBC Amendment 103.2.

Section 301.3 Deputies is amended to read exactly as set forth in IBC Amendment 103.3.

Section 302.9 Liability is amended to read exactly as set forth in IBC Amendment 104.8.

Section 401.3 Work Exempt from Permit is amended to establish the following additional exceptions:

401.3 Work exempt from permits. The following work shall be exempt from the requirements for a permit:

- a. Portable motors or other portable appliances energized by means of a cord or cable having an attachment plug end to be connected to an approved receptacle when that cord or cable is permitted by this code.

- b. Repair or replacement of fixed motors, transformers or fixed approved appliances of the same type and rating in the same location.
- c. Repair or replacement of current-carrying parts of any switch, contactor or control device.
- d. Repair or replacement of electrodes or transformers of the same size and capacity for signs or gas tube systems.
- e. The wiring for temporary theater, motion picture or television stage sets.
- f. Low-energy power, control, and signal circuits of Class II and Class III as defined in this code.
- g. The installation, alteration, or repair of electrical wiring, apparatus, or equipment, or the generation, transmission, distribution or metering of electrical energy, or in the operation of signals or the transmission of intelligence by public or private utilities in the exercise of their function as a serving utility.

Section 403.2 Expiration is amended to read exactly as set forth in IBC Amendment 105.5.

Section 403.3 Extensions is hereby repealed in its entirety.

Section 403.6 Information on the Permit is be amended to read as follows:

403.6 Information on the permit. The code official shall issue all permits required by this code on an approved form furnished for that purpose. The permit shall contain a general description of the operation or occupancy and its location and any other information required by the code official.

Section 404.2 Schedule of Fees is amended to read exactly as set forth in IBC Amendment 109.2.

Section 404.3 Work Commencing Before Permit Issuance is amended to read as follows:

404.3 Work commencing before permit issuance. Any person who commences any work before obtaining the necessary permits shall be subject to an investigation fee established by the code official, which shall be in addition to any other required permit fee. The investigation fee shall be as set forth in the Summit County Building Department Fee Schedule and subject to modification from time to time.

Section 404 Fees is amended by inserting three new subsections to read as follows:

404.6 Reinspections . Shall read exactly as set forth in IBC Amendment 110.7.

404.7 Temporary heat inspections. Inspections for authorizing temporary and/or permanent connection of the electrical system to the source of energy shall be deemed Temporary Heat inspections. To obtain this inspection, the applicant shall pay a Temporary Heat inspection fee in accordance with the Summit County Building Department Fee Schedule prior to the inspection being performed.

Exception : Temporary Heat inspections performed and approved during an electrical rough-in inspection.

404.8 Plan Review Fees. The plan review fees for electrical work shall be in accordance with the Summit County Building Department Fee Schedule.

Chapter 11 Means of Appeal is amended to read exactly as set forth in IBC Section 113.

Section 1202 Provisions and all subsections therein are hereby repealed in their entirety.

Section 1203 Existing Electrical Provisions and all subsections therein are hereby repealed in their entirety.

Section C101.1 is amended by adding the name, "Summit County".

Section C101 . Is amended by adding section C101.6:

Section C101.6 Summit Sustainable Building Code. (SSBC) In addition to the requirements of Section C101.5, new buildings shall comply with the Summit Sustainable Building Code, in accordance with Sections C101.6.1 and C101.6.2.

C101.6.1 Residential SSBC. All new structure residential groups R-2, R-3 and R-4 occupancies above 3 stories and not more than 5 stories shall be in compliance with the Department of Energy Zero Energy Ready Home National Program.

Exception: All new residential structures defined per section C101.6.1 shall register and submit to be reviewed and inspected through the Department of Energy's Zero Energy Ready Home National Program as a training exercise per the Summit County Building Department. The training program will be effective July 1st, 2020 through December 31st, 2021. Full compliance with the Department of Energy's Zero Energy Ready Home National Program shall be effective January 1, 2022.

C101.6.2 Commercial SSBC. All new structures defined as a Commercial Building in Chapter 2 except structures defined under C101.6.1 of this code shall comply with amended sections C401.2, C404.11 and C405.10.

Section C202 Definitions is amended by adding the following definitions within the alphabetical order of the existing definitions:

ELECTRIC VEHICLE (EV). A vehicle registered for on-road use, primarily powered by an electric motor that draws current from a rechargeable storage source that is charged by being plugged into an electrical current source.

ELECTRIC VEHICLE SUPPLY EQUIPMENT (EVSE). The electrical conductors and associated equipment external to the electric vehicle that provide a connection between the premises wiring and the electric vehicle to provide electric vehicle charging.

ELECTRIC VECHILE SUPPLY EQUIPMENT (EVSE) INSTALLED SPACE. A parking space with electric vehicle supply equipment capable of supplying a 40-ampere dedicated branch circuit rated at 208/240 volt from a building electrical panel board.

EV CAPABLE SPACE. A designated parking space which is provided with a listed raceway capable of accommodating a 40-ampere minimum 208/240-volt dedicated branch circuit for each future EV Ready or EVSE Installed parking space. Raceways shall not be less than trade size 1 (nominal 1-inch inside diameter). Raceways shall originate at the main service or subpanel and shall terminate into a listed cabinet, box, or enclosure in close proximity to the proposed location of the EV Capable parking spaces. Raceways are required to be continuous at enclosed, inaccessible or concealed areas and spaces. The service panel and/or subpanel shall provide capacity to install a 40-ampere minimum 208/240-volt dedicated branch circuit and space(s) reserved to permit installation of a branch circuit overprotection device.

Section C401.2 #1, 2 & 3 Is amended to read as follows:

C401.2 Application. Commercial buildings shall comply with one of the following:

1. The requirements of ANSI/ASHRAE/IESNA 90.1. The building's annual energy cost shall achieve savings 25 percent or greater than the baseline building energy model developed using ASHRAE 90.1 Energy Cost Budget protocol.
2. The requirements of Sections C402 through C405 and C408. In addition, commercial buildings shall comply with amended Section C406 and tenant spaces shall comply with Section C406.1.1.

3. The requirements of Sections C402.5, C403.2, C403.3 through C403.3.2, C403.4 through C403.4.2.3, C403.10.1 through C403.10.3, C403.11, C403.12, C404, C405, C407, and C408. The building energy cost shall be equal to or less than 75 percent of the standard reference design building.

Section C404 Service Water Heating is amended by adding section C404.11:

Exception: All structures complying with the Department of Energy's Zero Energy Ready Home National Program shall not have to comply to section C404.11

TABLE C404.11.1
PLUMBING FIXTURES AND FITTINGS REQUIREMENTS

PLUMBING FIXTURE	MAXIMUM
Water Closets (toilets) - flushometer single-flush valve type	Single-flush volume of 1.28 gal (4.8 L)
Water Closets (toilets) - flushometer dual-flush valve type	Full-flush volume of 1.28 gal (4.8 L)
Water Closets (toilets) - single-flush tank-type	Single-flush volume of 1.28 gal (4.8 L)
Water Closets (toilets) - dual-flush tank-type	Full-flush volume of 1.28 gal (4.8 L)
Urinals	Flush volume 0.5 gal (1.9 L)
Public lavatory faucets	Flow rate - 0.5 gpm (1.9 L/min)
Public metering self-closing faucet	0.25 gal(1.0 L) per metering cycle
Residential bathroom lavatory sink faucets	Flow rate - 1.5 gpm (5.7 L/min)
Residential kitchen faucets	Flow rate - 1.8 gpm (6.8 L/min) ^a
Residential showerheads	Flow rate - 2.0 gpm (7.6 L/min)
Residential shower compartment (stall) in dwelling units and guest rooms	Flow rate from all shower outlets total of 2.0 gpm (7.6 L/min)211 elk

a. With provision for a temporary override to 2.2 gpm (8.3 L/min) as specified in Section C404.11.1(g)

C404.11. Building Water Use Reduction .

C404.11.1 Plumbing Fixtures and Fittings. Plumbing fixtures (water closets and urinals) and fittings (faucets and showerheads) shall comply with the following requirements, as shown in Table 404.11.1:

a. Water closets (toilets) - flushometer valve type. For single-flush, maximum flush volume shall be determined in accordance with ASME A112.19.2/CSA B45.1 and shall not exceed 1.28 gal (4.8 L). For dual-flush, the full-flush volume shall not exceed 1.28 gal (4.8L) per flush. Dual-flush fixtures shall also comply with the provisions of ASME A112.19.14.

b. Water closets (toilets) - tank-type. Tank-type water closets shall be certified to the performance criteria of the USEPA WaterSense Tank-Type High-Efficiency Toilet Specification and shall have a maximum full-flush volume of 1.28 gal (4.8 L). Dual-flush fixtures shall also comply with the provisions of ASME A112.19.14.

c. Urinals. Maximum flush volume, when determined in accordance with ASME A112.19.2/CSA B45.1, shall not exceed 0.5 gal (1.9 L). Flushing urinals shall comply with the performance criteria of the USEPA WaterSense Specification for Flushing Urinals. Nonwater urinals shall comply with ASME A112.19.19 (vitreous china) or IAPMO Z124.9 (plastic) as appropriate.

d. Public lavatory faucets. Maximum flow rate shall not exceed 0.5 gpm (1.9 L/min) when tested in accordance with ASME A112.18.1/CSA B125.1.

e. Public metering self-closing faucet. Maximum water use shall not exceed 0.25 gal (1.0 L) per metering cycle when tested in accordance with ASME A112.18.1/CSA B125.1.

f. Residential bathroom lavatory sink faucets. Maximum flow rate shall not exceed 1.5 gpm (5.7 L/min) when tested in accordance with ASME A112.18.1/CSA B125.1. Residential bathroom lavatory sink faucets shall comply with the performance criteria of the USEPA WaterSense High-Efficiency Lavatory Faucet Specification.

g. Residential kitchen faucets . Maximum flow rate shall not exceed 1.8 gpm (6.8 L/min) when tested in accordance with ASME A112.18.1/CSA B125.1. Kitchen faucets shall be permitted to temporarily increase the flow greater than 1.8 gpm (6.8 L/min) but shall not exceed 2.2 gpm (8.3 L/min) and must automatically revert to the established maximum flow rate of 1.8 gpm (6.8 L/min) upon physical release of the activation mechanism or closure of the faucet valve.

h. Residential showerheads. Maximum flow rate shall not exceed 2.0 gpm (7.6 L/min) when tested in accordance with ASME A112.18.1/CSA B125.1. Residential showerheads shall comply with the performance requirements of the USEPA WaterSense Specification for Showerheads.

i. Residential shower compartment (stall) in dwelling units and guest rooms.

The allowable flow rate from all shower outlets (including rain systems, waterfalls, bodysprays, and jets) that can operate simultaneously shall be limited to a total of 2.0 gpm (7.6 L/min).

Exception: Where the area of a shower compartment exceeds 2600 in.² (1.7m²), an additional 2600 in.² (1.7m²) of floor area or fraction thereof shall be permitted for each multiple of 2600 in.² (1.7m²) of floor area or fraction thereof, with a maximum flow of 2.0 gpm (7.6 L/min).

j. Water-bottle filling stations. Water-bottle filling stations shall be an integral part of, or shall be installed adjacent to, not less than 50% of all drinking fountains installed indoors on the premises.

C404.11.2 Appliances.

a. Clothes washers and dishwashers installed within dwelling units shall comply with the ENERGY STAR® Program Requirements for Clothes Washers and ENERGY STAR Program Requirements for Dishwashers. Maximum water use shall be as follows:

1. Clothes washers - Maximum water factor (WF) of 5.4 gal/ft³ of drum capacity (0.72 L/L of drum capacity).
2. Dishwashers - Standard-size dishwashers shall have a maximum WF of 3.8 gal/full operating cycle (14.3 L/full operating cycle). Compact sizes shall have a maximum WF of 3.5 gal/full operating cycle (13.2 L/full operating cycle). Standard and compact size shall be defined by ENERGY STAR criteria.

b. Clothes washers installed in publicly accessible spaces (Informative Note: e.g., multifamily and hotel common areas), and coin- and card-operated clothes washers of any size used in laundromats, shall have a maximum WF of 4.0 gal/ft³ of drum capacity normal cycle (.053 L/L of drum capacity normal cycle).

c. Commercial dishwashers in commercial food-service facilities shall meet all ENERGY STAR requirements as listed in the ENERGY STAR Program Requirements for Commercial Dishwashers, Version 2.0.

C404.11.3 Commercial Food Service Operations. Commercial food service operations (Informative Note: e.g., restaurants, cafeterias, food preparation kitchens, caterers, etc.):

- a. Shall use high-efficiency prerinse spray valves (i.e., valves that function at 1.3 gpm [4.9 L/min] or less and comply with a 26 second performance requirement when tested in accordance with ASTM F2324),
- b. Shall use dishwashers that comply with the requirements of the ENERGY STAR Program for Commercial Dishwashers,
- c. Shall use boilerless/connectionless food steamers that consume no more than 2.0 gal/h (7.5 L/h) in the full operational mode,
- d. Shall use combination ovens that consume not more than 10 gal/h (38 L/h) in the full operational mode,
- e. Shall use air-cooled ice machines that comply with the requirements of the ENERGY STAR Program for Commercial Ice Machines, and
- f. Shall be equipped with hands-free faucet controllers (foot controllers, sensor activated, or other) for all faucet fittings within the food preparation area of the kitchen and the dish room, including pot sinks and washing sinks.

C404.11.4 Medical and Laboratory Facilities. Medical and laboratory facilities, including clinics, hospitals, medical centers, physician and dental offices, and medical and nonmedical laboratories of all types shall:

- a. Use only water-efficient steam sterilizers equipped with (1) water-tempering devices that allow water to flow only when the discharge of condensate or hot water from the sterilizer exceeds 140°F (60°C) and (2) mechanical vacuum equipment in place of venturi-type vacuum systems for vacuum sterilizers.
- b. Use film processor water-recycling units where large-frame x-ray films of more than 6 in. (150 mm) in either length or width are processed. Small dental x-ray equipment is exempt from this requirement.
- c. Use digital imaging and radiography systems where the digital networks are installed.
- d. Use a dry-hood scrubber system or, if the applicant determines that a wet-hood scrubber system is required, the scrubber shall be equipped with a water recirculation system. For perchlorate hoods and other applications where a hood wash-down system is required, the hood shall be equipped with self-closing valves on those wash-down systems.
- e. Use only dry vacuum pumps unless fire and safety codes (Informative Note: e.g., International Fire Code) for explosive, corrosive, or oxidative gases require a liquid ring pump.
- f. Use only efficient water treatment systems that comply with the following criteria:
 - 1. For all filtration processes, pressure gages shall determine and display when to backwash or change cartridges.
 - 2. For all ion exchange and softening processes, recharge cycles shall be set by volume of water treated or based on conductivity or hardness.
 - 3. For reverse osmosis and nanofiltration equipment with capacity greater than 27 gal/h (100 L/h), reject water shall not exceed 60% of the feed water and shall be used as scrubber feed water or for other beneficial uses on the project site.
 - 4. Simple distillation is not acceptable as a means of water purification.
- g. With regard to food service operations within medical facilities, comply with Section 404.11.3.

Section C405 Electrical Power and Lighting Systems is amended by adding section C405.10:

C405.10. EV charging for new construction. The building shall be provided with electric vehicle charging in accordance with this section and the National Electrical Code (NFPA 70). When parking spaces are added or modified without an increase in building size, only the new parking spaces are subject to this requirement.

C405.10.1. Group R occupancies. Group R occupancies with three or more dwelling units and/or sleeping units shall be provided with EV charging in accordance with Table C405.11.1. Calculations for the number of spaces shall be rounded up to the nearest whole number.

Table C405.10.1.

Total Number of Parking Spaces	Number of EVSE Installed Spaces	Number of EV Ready Spaces	Number of EV Capable Spaces
1	None	1	None
2 - 9	None	1	20% of spaces
> 10	5% of spaces (minimum one dual-port charging station)	10% of spaces	40% of remaining spaces

C405.11.2 Group A, B, E, I, M and S-2 occupancies. Group A, B, E, I, M and open or enclosed parking garages under S-2 occupancy shall be provided with electric vehicle charging in accordance with Table C405.11.2. Calculations for the number of spaces shall be rounded up to the nearest whole number.

Exception: The number of electric vehicle supply equipment (EVSE) installed spaces may be reduced by up to five provided that the building includes not less than one parking space equipped with an EV fast charger and not less than one EV ready space.

Table C405.10.2.

Total Number of Parking Spaces	Number of EVSE Installed Spaces	Number of EV Ready Spaces	Number of EV Capable Spaces
1	None	1	None
2 - 25	None	1	1
> 25	5% of spaces (minimum one dual-port charging station)	10% of spaces	40% of remaining spaces

C405.10.2 Identification. Construction documents shall designate all electric vehicle capable and electric vehicle supply equipment installed spaces and indicate the locations of conduit and termination points serving them. The circuit breakers or circuit breaker spaces reserved for the electric vehicle capable spaces and electric vehicle supply equipment installed spaces shall be clearly identified in the panel board.

C405.10.3 Accessible Parking . Where new EVSE Installed Spaces and/or new EV Capable Spaces and new accessible parking are both provided, parking facilities shall be designed so that at least one accessible parking space shall be EV Capable or EVSE Installed.

Section C406.1 Requirements. Is amended to read as follows:

C406.1 Requirements . Buildings shall comply with the following:

1. On-site supply of renewable energy in accordance with Section C406.5.

OWNER WARRANTY: In the event an Owner of a new commercial building decides to comply with Section C406.1 #1 or utilize the exception of section C406.1 of this Code by doing a PV installation to comply with the requirement of on-site renewable energy, such Owner shall be responsible for warranting the PV installation for the life of the structure in order to ensure that compliance with this Code is ongoing. Such warranty shall ensure that the PV installation remains operational and functional as per its original purpose for the warranted period of time and shall run with the installation so as to be binding on

future owners. The warranty shall be void and approved by the Building Official in the event the structure is supplied with 100% renewable energy.

2. Provision of a dedicated outdoor air system for certain HVAC equipment in accordance with Section C406.6.
3. One additional package selected from the following:
 - a. More efficient HVAC performance in accordance with Section C406.2.
 - b. Reduced lighting power in accordance with Section C406.3.
 - c. Enhanced lighting controls in accordance with Section C406.4.
 - d. High-efficiency service water heating in accordance with Section C406.7.
 - e. Enhanced envelope performance in accordance with Section C406.8.
 - f. Reduced air infiltration in accordance with Section C406.9.

Exception: If the total on-site renewable energy installed per Section C406.5 is at least 10 percent of the energy used within the building for mechanical and service water heating equipment and lighting regulated in Chapter 4, then buildings shall not be required to comply with provisions 2 and 3 of Section C406.1.

Section C406.5 On-site renewable energy. Is amended to read as follows:

C406.5 On-site renewable energy. The total minimum ratings of on-site renewable energy systems shall be not less than 3 percent of the energy used within the building for building mechanical and service water heating equipment and lighting regulated in Chapter 4.

Section C406.6 Dedicated outdoor air system. Is amended by adding section C406.6.1:

C406.6.1 Energy Recovery system. Where the supply airflow rate of a fan system exceeds 30 cfm of outside air, the system shall include an energy recovery system. The energy recovery system shall be configured to provide a change in the enthalpy of the outdoor air supply of not less than 50 percent of the difference between the outdoor air and return air enthalpies, at design conditions. Where an air economizer is required, the energy recovery system shall include a bypass or controls that permit operation of the economizer as required by Section C403.5.

Section R101.1 is amended by adding the name, "Summit County".

Section R101.5 Compliance. is amended by adding section R101.5.2. and R101.5.3

Section R101.5.2 Sustainable Building Code. All new structures defined as Residential Buildings under chapter 2 of this code shall be designed and comply with the Department of Energy Zero Energy Ready Home National Program.

Exception: All residential new structures defined per section R101.5.2 shall register and submit to be reviewed and inspected through the Department of Energy Zero Energy Ready Home National Program as a training exercise per the Summit County Building Department. The training exercise program will be effective July 1st, 2020 through December 31st, 2020. Full compliance with the Department of Energy Zero Net Energy Ready Home National Program shall be effective January 1, 2021.

Section R101.5.3. All new structures defined as a Residential Building under chapter 2 of this code shall be designed and comply to amended section R404.2

Section R202 Definitions is amended by adding the following definitions within the alphabetical order of the existing definitions:

ELECTRIC VEHICLE (EV). A vehicle registered for on-road use, primarily powered by an electric motor that draws current from a rechargeable storage source that is charged by being plugged into an electrical current source.

ELECTRIC VEHICLE SUPPLY EQUIPMENT (EVSE). The electrical conductors and associated equipment external to the electric vehicle that provide a connection between the premises wiring and the electric vehicle to provide electric vehicle charging.

ELECTRIC VEHICLE SUPPLY EQUIPMENT (EVSE) INSTALLED SPACE. A parking space with electric vehicle supply equipment capable of supplying a 40-ampere dedicated branch circuit rated at 208/240 volt from a building electrical panel board.

EV CAPABLE SPACE. A designated parking space which is provided with a listed raceway capable of accommodating a 40-ampere minimum 208/240-volt dedicated branch circuit for each future EV Ready or EVSE Installed parking space. Raceways shall not be less than trade size 1 (nominal 1-inch inside diameter). Raceways shall originate at the main service or subpanel and shall terminate into a listed cabinet, box, or enclosure in close proximity to the proposed location of the EV Capable parking spaces. Raceways are required to be continuous at enclosed, inaccessible or concealed areas and spaces. The service panel and/or subpanel shall provide capacity to install a 40-ampere minimum 208/240-volt dedicated branch circuit and space(s) reserved to permit installation of a branch circuit overprotection device.

EV READY SPACE. A designated parking space which is provided with one minimum 40-ampere, 208/240-volt dedicated branch circuit for EVSE servicing Electric Vehicles. The circuit shall terminate in a suitable termination point such as a receptacle, junction box, or an EVSE, and be located in close proximity to the proposed location of the EV Ready parking spaces.

Table R402.1.2 Insulation and Fenestration Requirements by Component . is amended to add the following footnote:

Table R402.1.2 footnote j. R23 Blown in bibs are permitted to be installed in walls in lieu of the R20+5. If utilizing the R23, the roof/ceiling insulation reductions detailed in R402.2.1 and R402.2.2 are not allowed.

Exception: applicable for only alterations or remodels 1500sf or less.

Table R402.1.2 Insulation and Fenestration Requirements by Component. Fenestration U-Factor column is amended to read 0.32 for Climate Zone 7 and 8:

Exception: applicable for replacement fenestrations or new fenestrations being installed is 60% or less of the existing fenestrations in additions, alterations or repairs.

R402.2.10 is amended to read as follows:

R402.2.10 Slab-on-grade floors. Slab-on-grade floors with a floor surface less than 40 inches below grade shall be insulated in accordance with Table N1102.1.1. The insulation shall extend downward from the top of the slab on the outside or inside of the foundation wall. Insulation located below grade shall be extended the distance provided in Table N1102.2.2 by any combination of vertical insulation, insulation extending under the slab or insulation extending out from the building. Insulation extending away from the building shall be protected by pavement or by a minimum of 10 inches of soil. The top edge of the insulation installed between the exterior wall and the edge of the interior slab shall be permitted to be cut at a 45-degree (0.79) angle away from the exterior wall.

Section R404 is amended by adding section R404.2:

R404.2 Electric Vehicle (EV) charging for new construction. New construction shall facilitate future installation and use of Electric Vehicle Supply Equipment (EVSE) in accordance with the National Electrical Code (NFPA 70).

R404.2.1 One- to two-family dwellings and townhouses. For each dwelling unit, provide at least one EV Ready Space. The branch circuit shall be identified as “EV Ready” in the service panel or subpanel directory, and the termination shall be marked as “EV Ready.”

Exception: 1. EV Ready Spaces are not required where no parking spaces are provided.

2. This section does not apply to parking spaces used exclusively for trucks for delivery vehicles.

R404.2.2 Multifamily dwellings (three or more units). EV Ready and EV Capable Spaces shall be provided in accordance with Table R404.2.2. Where the calculation of percent served results in a fractional parking space, it shall round up to the next whole number. The service panel or subpanel circuit directory shall identify the spaces reserved to support EV charging, as “EV Ready” or “EV Capable.” The raceway location shall be permanently and visibly marked as “EV Capable.”

**TABLE R404.2.2
EV Ready Space and EV Capable Space Requirements**

Total Number of Parking Spaces	Number of EVSE Installed Spaces	Number of EV Ready Spaces	Number of EV Capable Spaces
1	None	1	None
2 - 9	None	1	20% of spaces
> 10	5% of spaces (minimum one dual-port charging station)	10% of spaces	40% of remaining spaces

Exception: The number of electric vehicle supply equipment (EVSE) installed spaces may be reduced by up to five provided that the building includes not less than one parking space equipped with an EV fast charger and not less than one EV ready space.

R404.2.3 Identification. Construction documents shall designate all electric vehicle capable spaces, electric vehicle ready spaces, and electric vehicle supply equipment installed spaces and indicate the locations of conduit and termination points serving them. The circuit breakers or circuit breaker spaces reserved for the electric vehicle capable spaces, electric vehicle ready spaces, and electric vehicle supply equipment installed spaces shall be clearly identified in the panel board. The conduit for electric vehicle capable spaces shall be clearly identified at both the panel board and the termination point at the parking space.

R404.2.4 Accessible Parking Where new EVSE Installed Spaces and/or new EV Ready Spaces and new accessible parking are both provided, parking facilities shall be designed so that at least one accessible parking space shall be EV Ready or EVSE Installed.

R501.1 Scope. is amended by adding section R501.1.2

R501.1.2 Additions and alterations . Additions and interior alterations to an existing building where the total valuation is \$50,000. & over an energy audit shall be provided for the existing structure prior to permit issuance. The energy audit recommendations and/or conclusions may but shall not affect the scope of the work submitted for permit.

Exception: re-roofs, exterior siding and deck additions or deck alterations or deck repairs.

THE UNIFORM CODE FOR BUILDING CONSERVATION.

Chapter 1 is amended by adding a new section to read as follows:

SECTION 3 Violation Penalties is to read exactly as set forth in IBC 113.4.

SECTION 201 Administration is to read exactly as set forth in IBC amendment 103.2.

Section 205 is amended by adding the following additional first paragraph to read exactly as set forth in IBC amendment 104.8.

Section 207 is amended to read as follows:

SECTION 207 Board of Review is to read exactly as set forth in IBC amendment 112.

Section 301 is amended by amending the definition of Building Code to read as follows:

BUILDING CODE is the International Building Code or the International Residential Code, whichever is applicable, published by the International Code Council, Inc., as adopted by this jurisdiction.

UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS.

Section 310 is amended by amending the definition of Building Code to read as follows:

BUILDING CODE is the International Building Code or the International Residential Code, whichever is applicable, published by the International Code Council, Inc., as adopted by this jurisdiction.

Exhibit B

SUMMIT COUNTY BUILDING DEPARTMENT 2021 Fee Schedule	
BUILDING PERMIT FEES	
TOTAL VALUATION	PERMIT FEE
\$1.00 to \$500.00	\$50.00
\$501.00 to \$2,000.00	\$50.00 for the first \$500.00 plus \$1.25 for each additional \$100.00 or fraction thereof, to and including \$2,000.00
\$2,001.00 to \$25,000.00	\$69.25 for the first \$2,000.00 plus \$14.00 for each additional \$1,000.00, or fraction thereof, to and including \$25,000.00
\$25,001.00 to \$50,000.00	\$391.25 for the first \$25,000.00 plus \$10.10 for each additional \$1,000.00, or fraction thereof, to and including \$100,000.00
\$50,001.00 to \$100,000.00	\$643.75 for the first \$50,000.00 plus \$7.00 for each additional \$1,000.00, or fraction thereof, to and including \$500,000.00
\$100,001.00 to \$500,000.00	\$1,169.55 for the first \$100,000.00 plus \$6.73 for each additional \$1,000.00, or fraction thereof, to and including \$500,000.00
\$500,001.00 to \$1,000,000.00	\$3663.00 for the first \$500,000.00 plus \$5.34 for each additional \$1,000.00, or fraction thereof, to and including \$1,000,000.00
\$1,000,001.00 and up	\$6332.22 for the first \$1,000,000.00 plus \$3.90 for each additional \$1,000.00, or fraction thereof.
**Plan review fees - When submittal documents are required by the building code, a mandatory plan review fee shall be paid at the time of submitting the documents for plan review. Said plan review fee shall be calculated as 65 percent of the building permit fee (reference above table). Please see code amendment document for additional fees. **	
WINDOW PERMIT FEES	
TOTAL VALUATION	PERMIT FEE
\$1.00 to \$500.00	\$50.00
\$501.00 to \$2,000.00	\$50.00 for the first \$500.00 plus \$1.25 for each additional \$100.00 or fraction thereof, to and including \$2,000.00

\$2,00.01 to \$25,000.00	\$69.25 for the first \$2,000.00 plus \$14.00 for each additional \$1,000.00, or fraction thereof, to and including \$25,000.00
\$25,001.00 to \$50,000.00	\$391.25 for the first \$25,000.00 plus \$10.10 for each additional \$1,000.00, or fraction thereof, to and including \$100,000.00
FIREPLACE PERMIT FEES	
VALUATION	PERMIT FEE
Multiply total fireplace valuation by a constant of 0.0075	Minimum fee \$50.00
RESIDENTIAL HOT TUB PERMIT FEES	
PERMIT FEE	
Including plan review	\$50.00
ELECTRICAL PERMIT FEES	
UNIT AREA	PERMIT FEE
Not more than 1,000 sq. ft.	\$120.00
Over 1,000 sq. ft., and not more than 1,500 sq. ft.	\$168.00
Over 1,500 sq. ft., and not more than 2,000 sq. ft.	\$216.00
Over 2,000 sq. ft.	\$216.00 plus \$9.62 per 1000 sq. ft. or fraction thereof over 2,000 sq. ft.
ALL OTHER FEES: Except for inspection in mobile homes and travel parks, all other permit fees shall be computed on the dollar value of the electrical installation, including labor and material, and such fees shall be computed as follows:	
VALUATION	PERMIT FEE
Not more than \$2,000.00	\$120.00
More than \$2,000.00	\$9.60 per thousand or fraction thereof plus \$120.00
Mobile homes and travel parks per space	\$120.00
Additional plan review	\$65.00 per hour or fraction thereof
Reinspection on all above	\$65.00
Temporary Power Permit	\$65.00
Hot Tub Electrical Permit	\$120.00
**Plan review fees - The plan review fees for electrical work shall be calculated as 65 percent of the electrical permit fee. **	
PHOTOVOLTAIC PERMIT FEES	
RESIDENTIAL	
RESIDENTIAL SYSTEMS UNDER SCOPE OF THE IRC	PLAN REVIEW & PERMIT FEE
See Valuation and fees under electrical permit fees	Not to exceed \$400.00
COMMERCIAL	
ALL SYSTEMS INSTALLED UNDER THE SCOPE OF THE IBC	PLAN REVIEW & PERMIT FEE
See Valuation and fees under electrical permit fees	Not to exceed \$1000.00
MECHANICAL PERMIT FEES	
VALUATION	PERMIT FEE
Valuation for new structures is based off of 10% of the project's total valuation	10% of building valuation multiplied by 0.0075
Multiply total mechanical valuation by a constant of 0.0075	Minimum fee \$50.00
Plan review fee (when required)	65% of Mechanical Permit Fee
PLUMBING PERMIT FEES	
VALUATION	PERMIT FEE
Valuation for new structures is based off of 10% of the project's total valuation	10% of building valuation multiplied by 0.0075

Multiply total plumbing valuation by a constant of 0.0075	Minimum fee \$50.00
Plan review fee (when required)	65% of Mechanical Permit Fee
MOBILE HOME FEES	
STANDARD MOBILE HOME SET	FEES
Standard mobile home setting, landing, steps, and handrails necessary for entrance	\$15.00 Plan Review Fee \$35.00 Permit Fee
Additional structures	See "Building Permit Fees"
FIRE HAZARD MITIGATION PERMIT FEE	
To be collected by fire department	\$150.00
MISCELLANEOUS FEES	
Description	Fee
1. Inspections outside of normal business hours (minimum charge - two hours)	\$65.00 per hour ¹
2. Reinspection fee assessed	\$65.00
3. Investigation Fee	Equivalent to building permit fee
4. Inspections for which no fee is specifically indicated (minimum charge - one hour)	\$65.00 per hour ¹
5. Change of Contractor Fee	\$65.00
6. Prints/Copies	\$3.00 per page - 24x36 or larger \$2.00 per page - 18x24 \$.25 per page - 8.5x11
7. Additional plan review (minimum charge - one hour)	\$65.00 per hour ¹
8. For use of outside consultants for plan checking or inspections or both	Actual costs ²
9. Clerical time for researching or duplicating records, or both (minimum charge -one hour)	\$65.00 per hour ¹
10. Building Board of Review appeals hearing	\$1,000.00; the appeal fee shall be refunded to those appellants who are successful in their appeal.
¹ Or the total hourly cost to the jurisdiction, whichever is greatest.	
AFFORDABLE HOUSING DEVELOPMENT IMPACT FEE	
Single Family Residences	
Description	Fee
1,499 square feet or less	\$0
1,500 to 2,499 square feet	\$0.50 per square foot
2,500 to 3,499 square feet	\$1.00 per square foot
3,500 to 4,999 square feet	\$1.50 per square foot
5,000 + square feet	\$2.00 per square foot
Single family residences shall include detached single family homes as well as duplexes (as defined in the Summit County Land Use and Development Code). The above schedule shall also apply to 1) New additions to existing detached single family structures and 2) Accessory structures attached or detached to single family residences.	
All Other Residential Structures¹	
Description	Fee
999 square feet or less	\$0
1,000 to 1,499 square feet	\$0.50 per square foot
1,500 to 2,499 square feet	\$1.00 per square foot
2,500 + square feet	\$2.00 per square foot
¹ Calculate per unit with common area space allocated on a pro rata basis per unit. Includes: multi-family dwelling (as defined in the Summit County Land Use and Development Code as "dwelling, multifamily"), common areas/amenity buildings within residential components not classified as commercial structures, managers units, accessory apartments or caretaker units, and additions to these	

above type of structures.

Commercial or Industrial Structures

\$2.00 per square foot

Includes: all commercial buildings and outbuildings to be built on the property (e.g., garages, sheds, etc.)

COPPER MOUNTAIN & KEYSTONE PUD ARE EXEMPT

REFUND POLICY

80% of permit fee is refunded to payer. Plan Review fee is non-refundable once plan review has been completed.
